NEWARK, OHIO, WEDNESDAY EVENING, NOVEMBER 14, 1917

TEN CENTS A WEEK

MARRIED MEN NOT EXEMPT AS CLASS ALL MUST REPORT

New Regulations Issued Subject Family Men to Emergency Call

BOOKLET OF QUESTIONS GOES TO REGISTRANTS

Every Man Must File Answers With Draft Board Seven Days Later

(Associated Press Telegram) Washington, Nov. 14.—The five classes into which nine million men registered for military duty—and those who are registered hereafter—are divided and the order in which they will be called for service were officially announced today in the present marshal general's questionnaire which every registered man must fill out and file. The order shows some change from the tentative draft published some time ago. Contrary to some published reports it does not exempt married men as a class, but it does place married men with dependent wives and children far down on the list of liabilities. In fact, the questionnaire indicates that only men of the first class will be called to the colors except in the gravest emergency. The five official classifications of registrants follow:

- Class I.**
(a) Single man without dependent relatives.
(b) Married man, with or without children, or father of motherless children, who has habitually failed to support his family.
(c) Married man dependent on wife for support.
(d) Married man, with or without children, or father of motherless children; man not usefully engaged, family supported by income independent of his labor.
(e) Unskilled farm laborer.
(f) Unskilled industrial laborer.
Registrant by or in respect of whom no deferred classification is claimed or made.
Registrant who fails to submit questionnaire and in respect of whom no deferred classification is claimed or made.
All registrants not included in any other division in this schedule.
- Class II.**
(a) Married man with children or father of motherless children, where such wife or children or such motherless children are not mainly dependent upon his labor for support for the reason that there are other persons in the household of adequate support (excluding earnings or possible earnings from the labor of the wife); available, and that the removal of the registrant will not deprive such dependents of support.
(b) Married man, without children, whose wife, although the registrant is engaged in a useful occupation, is not mainly dependent upon his labor for support, for the reason that the wife is skilled in some special class of work which she is physically able to perform and in which she is employed, or in which there is an immediate opening for her un-

ITALIAN'S PLANE CALLED BEST YET

Gianni Caproni.

Everyone has heard of the wonderful performances of the giant Caproni airplane, which is the invention of Gianni Caproni. Just recently this airplane flew from Virginia to Long Island, carrying ten persons.

HOSPITAL GUARDS ARE ARRESTED FOR MURDER OF INMATE

(Associated Press Telegram) Cincinnati, Nov. 14.—Three investigations into the death of Sablin Hollister, a patient at Longview hospital, were in progress here today. Both the coroner and the police are making every effort to get at the real facts of the Hollister case, while the grand jury is not only investigating the Hollister affair but has been instructed to go into the investigation of all deaths at the hospital during the last three years.

THIRD BATTALION OF AMERICANS IN FRONT LINE TRENCH

(Associated Press Telegram) With the American army in France, Tuesday, Nov. 13.—The third series of American battalions is now occupying the first line and the second American detachments to enter the trenches have returned to their billets. The relief was accomplished on a brilliant starlight night without the knowledge of the Germans.

Included among the returning troops is the company which bore the brunt of the recent raid on the American trenches. At retreat this evening this company lined up in a little muddy street in a village nestled under a hill some miles from the front. Their clothes were caked with mud and the roofs and fences nearby were hung with wet blankets. Openings here and there in the ranks showed how many men had been killed, wounded and made prisoners in the trench fight. After the company was dismissed an officer of the battalion watched the men splash through the mud, and said: "There goes the scrappiest bunch of soldiers in France. They are all mad through and are just biding their time till they get a chance to repay the Germans for what happened their comrades. They will get their revenge before this war is over. You can depend on that."

HUSBAND KILLS SELF AFTER SHOOTING WIFE

(Associated Press Telegram) Columbus, Nov. 14.—Mrs. Margaret Fischer, aged 33, is in a critical condition suffering from bullet wounds inflicted by her husband, Walter Fischer, aged 37, and the husband is dead at the city prison, where he committed suicide after being arrested.

Fischer had been separated for a few days. Late yesterday his husband sought his wife and before their six-year-old daughter, shot her twice. He was arrested in a nearby saloon and was taken to the city prison where he killed himself with poison during the night.

ITALIAN LINE ON PIAVE RIVER IS STILL UNBROKEN

Desperate Effort of Austro-German Forces to Cross Are Defeated

TEUTONS SEEK TO BREAK LINE ON TRENTINO SECTOR

Success Here Would Separate Army in Alps From Forces in Valley

(Associated Press Telegram) Rome, Nov. 14.—A withdrawal of the Italian forces in the north, in the region east of Asiago, is announced by the war office. On the lower Piave river the attack continues on the Germans who yesterday effected a crossing near Zenson. The statement says the enemy has not yet been dislodged completely.

An attempt of the enemy to cross the Piave between Quero and Fenero was suppressed. The enemy suffered severely.

(Associated Press Telegram) Berlin, Nov. 14, via London.—The capture by Austro-German forces of the towns of Primolano in the Sugana valley and Feitze, west of the Upper Piave river, is announced today by army headquarters.

(Associated Press Telegram) Italian Headquarters in Italy, Tuesday, Nov. 13.—The Piave line still holds in the main against heavy and continuous artillery fire from the eastern bank and the efforts of the Austro-Germans to cross the stream. These efforts have not taken the proportions of a general movement, but several battalions crossed the river in positions near Zenson. The Italian artillery concentrated its fire on the raiding parties, either destroying them in mid-stream or pushing them back on the river bank. The fighting here was desperate and sanguinary. Men who have returned from the batteries along the Piave say the German fire is extremely heavy, but from middle-caliber guns.

Reports indicate the enemy is operating on four main fronts. General Borovio is on the lower Piave. General von Buelow is on the upper Piave. General Krobattin is on the eastern Trentino and General Conrads is in the western Trentino. This gives von Buelow the task of trying to force the center while Borovio and Conrad press in the Piave and Trentino wings. The number of troops under the Austro-German commanders is not known.

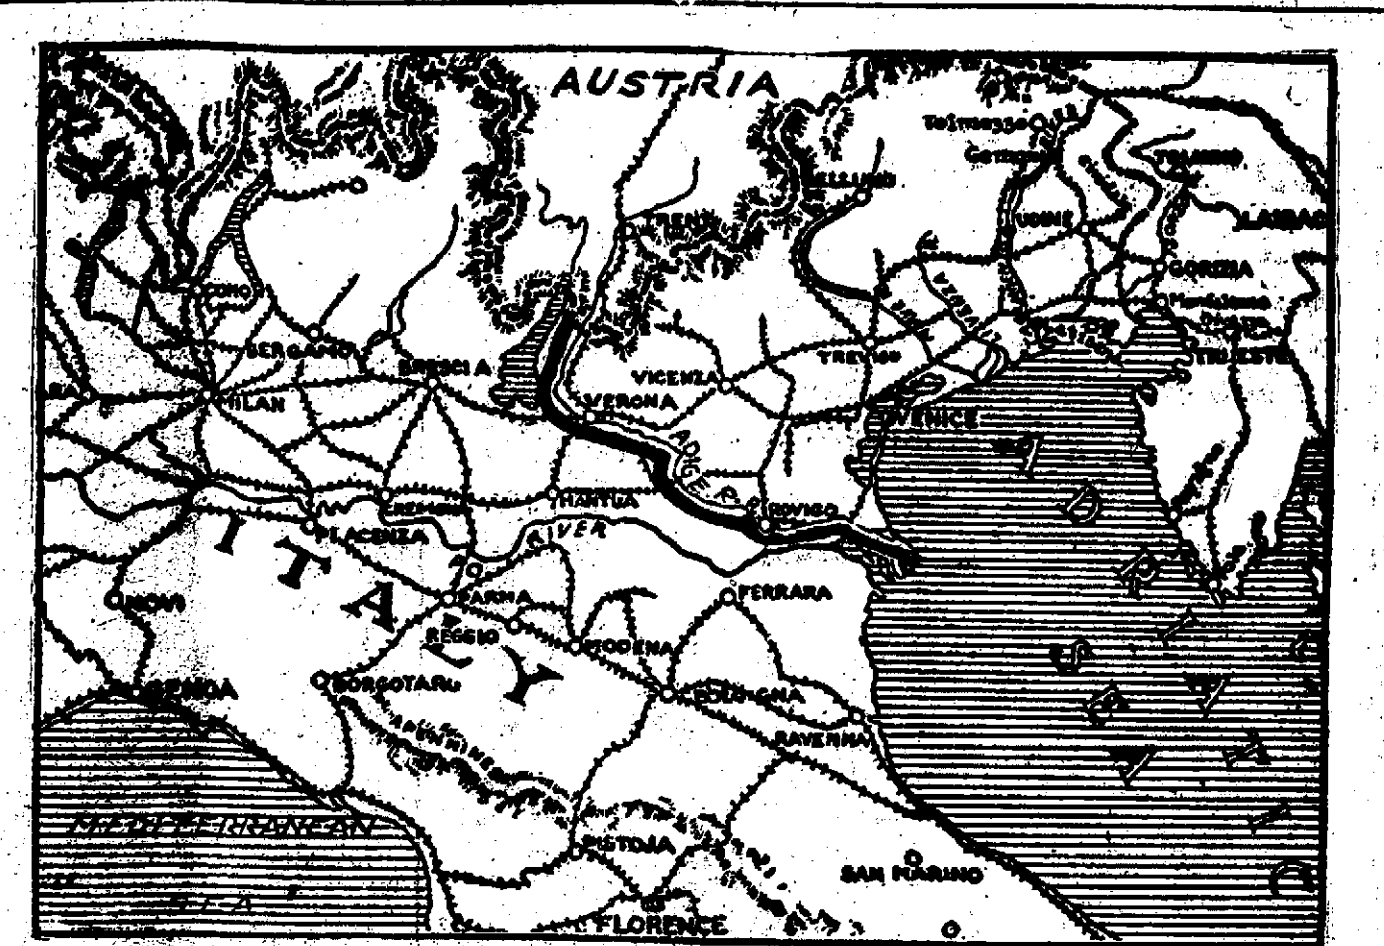

An Italian aviator who made one of the last flights over Udine after it was evacuated says the city was damaged only slightly. He saw several large fires at separate points and the hope is expressed that one of them was not the city hall of Udine, which is a handsome monument of Venetian architecture resembling the Doges Palace.

The inter-allied council is considered (Continued on Page 3, Col. 4.)

AKRON CARS STILL IDLE; MEN PICKET KENMORE BARN

(Associated Press Telegram) Akron, Nov. 14.—The Kenmore car barns of the Northern Ohio Traction and Light company were under guard of a picket of 25 union men today when the third day of the street car strike began without a car in operation.

MILITARY EXPERTS FEAR ITALIANS WILL RETREAT TO ADIGE LINE, GIVE UP VENICE

Heavy black line indicates where Italians are expected to make final stand. The inter-allied military committee, realizing that the Austro-German drive from the Trentino renders futile the effort to check the advance from the east across the Venetian plain, is said to have determined upon retirement to the line of the Adige, and the consequent surrender of still more Italian territory. The Adige, which rises in the Trentino, runs due south almost to Verona and then turns abruptly to the southeast to cross the plain to the Adriatic some twenty miles to the south of Venice.

NEWARK IS WITHIN \$413 OF GOAL; COUNTRY DISTRICTS TO BE HEARD FROM IN LOCAL DRIVE FOR Y. M. C. A. WAR FUND

Newark is within \$413 of the \$15,000, which the city has been asked to contribute towards the \$35,000,000 Y. M. C. A. fund. When the reports of the division chairmen were submitted at today's luncheon in the Masonic temple, showing that the local campaign had been practically finished in two days' work, the 150 men present unanimously agreed to continue the work of canvassing for another day in order to give all an opportunity to contribute and also agreed to co-operate with the county executive committee in perfecting an organization in the village and rural districts. In the recent Red Cross campaign the county section made a better record than Newark, but this time Newark is smiling and challenges the country to defeat her again. Here are the city figures to date:

	Nov. 13	Nov. 14
R. S. Wyeth	455.00	400.00
W. C. Metz	500.00	418.25
K. I. Dickerson	333.50	531.50
Carl Dayton	821.25	418.00
Geo. E. Pickup	666.50	872.50
F. C. Evans	434.00	470.50
Geo. Herman	482.50	404.00
L. N. Krieg	616.00	461.50
Ex. Committee	6,500.00	
Totals	\$10,618.75	\$3,968.25
Grand total		\$14,587.00

Yesterday's subscriptions, \$4,118.75, not including the \$6500 turned in by the executive committee, were made by 519 people. Total subscriptions amounting to \$3,968.25 were given by 632 people. Mr. Wyeth's division reported 45 subscriptions. Mr. Metz's 82, Mr. Dickerson 123, Mr. Dayton 80, Mr. Pickup 161, Mr. Evans 46, Mr. Herman 61, Mr. Krieg 94.

The banner was given yesterday to Mr. Pickup's division and the honors today were also handed to Mr. Pickup and his men for having reported the greatest amount of money and the largest number of subscriptions.

Special reference was made by Campaign Manager Barber to the good work done by Fred M. Black, Carl Dayton, Lawrence Krieg, Col. W. C. Wells, and others.

Announcement was made that the Kresge 5 and 10-cent store gave a contribution of \$200—50 per cent of yesterday's sales. The 175 Kresge stores did the same thing that was done by the Newark store yesterday, but the figures are not yet available. Sixty-five men of the Kresge organization are now in the national army.

A. S. Mitchell made a rousing speech, calling attention to the importance of organization in the country and village districts. He said that by tonight, 15 townships will be organized and that organizations must be effected in 10 others in the national army.

Recent developments in Europe indicate that more than \$35,000,000 will be needed to carry on the Y. M. C. A. work till next July so nobody need fear that the fund will be over-subscribed. Every dollar given will be put to good use.

61,000 FIREMEN MAY JOIN STRIKE; WILL SEE WILSON

(Associated Press Telegram) Washington, Nov. 14.—Arrangements have been made for the chiefs of the four railway brotherhoods to see President Wilson on Monday, Nov. 26, in connection with the workers' proposals for wage increases for conductors and brakemen on all the railroads of the country.

(Associated Press Telegram) New York, Nov. 14.—Whether 61,000 railway firemen will join with the conductors and brakemen on all railroad lines in the United States in their proposal to submit demands for large wage increases, will be determined at a meeting of the firemen brotherhood to be held at Cleveland, Ohio, this week, it was learned here today.

The conductors and brakemen with a total membership of 175,000 are now taking a secret vote on a proposition to place before the railroad demands for increases in wages amounting to more than \$100,000,000 yearly. These demands mean increases in pay averaging 42 per cent. The official Brotherhood circular, made public yesterday, declares that "in case the proposition is turned down by the management, a strike vote will be taken. The fact that the engineers brotherhood has not joined the movement is causing considerable speculation in railroad circles here. One report, which has not been confirmed, indicates that Warren S. Stone, head of the engineers organization, has refused to participate in the demands, on the ground that it would be unwise at the present time to agitate a railroad strike. Mr. Stone is a prominent member of one of the advisory bodies of the council of national defense.

scoured the city for contributions and there were but few refusals to assist in the good work. The sales force of the Kresge store hustled like beavers, for the management had agreed to contribute 50 per cent of the day's sales to the Y fund, and in addition had promised a substantial sum in gold to the girls' clerks whose percentage of sales showed the greatest increase over that of the previous week, the prize to be divided.

The Kresge store announced today that its contribution to the Y fund would be \$200. The management of the Kresge store is a little disappointed as he had expected that the sales would warrant a larger contribution, but states that weather conditions were not just right for a big day's business. However, the \$200 is certainly acceptable to these having charge of the campaign and it assisted materially in swelling the day's contributions.

The extra sales force of the Kresge store, who assist on Saturdays, appeared in addition had promised a substantial sum in gold to the girls' clerks whose percentage of sales showed the greatest increase over that of the previous week, the prize to be divided.

On Friday night meetings will be held at Johnstown, Pataskala, St. Louisville, Mary Ann township, Flat-town and Outville. It is hoped that the people in all the outlying townships will appreciate the vital importance of this campaign for a fund known as the Y. M. C. A. war fund. The Y. M. C. A. is endorsed by all our military officers and soldier boys as they realize it is one of the best ways to keep the soldier contented and well-developed in every phase of life and thereby making better men and a stronger army.

It is expected that when the final campaign in this county is finished for this fund that the country outside of the city will more than have reached her proportion of the total amount.

GERMAN TOYS WILL BE ADMITTED BY UNGLE SAM

(Associated Press Telegram) Washington, Nov. 14.—Toys, "made-in-Germany," may be among the presents which young Americans will receive in their stockings this Christmas if ships are available for their transportation from Rotterdam. Announcement was made today at the department of commerce that the several million dollars worth of German goods held at Rotterdam since 1914, and recently ordered released, contains a large amount of toys.

NEW GOVERNMENT MAKES NO PEACE PROPOSAL YET

(Associated Press Telegram) Amsterdam, Nov. 14.—Austrian newspapers print a statement from the official news agency, pointing out that neither Vienna nor Berlin has received an actual peace or armistice proposal from the Russian government and as long as the new rulers of Russia do not submit proposals the central powers dare do nothing in the matter, according to a dispatch from Vienna. Should the Maximalists retain the upper hand in Russia and come forward with a peace offer the Austro-Hungarian government would, the statement says, immediately establish accord with its allies and fix a common attitude.

(Associated Press Telegram) New York, Nov. 14.—Legalized boxing in New York state goes out of existence tonight when the Frawley law becomes inoperative. Private boxing exhibitions, however, may be held before clubs under the former membership system which prevailed before the Frawley law was passed.

KERENSKY AGAIN REPORTED ON TOP IN RUSS TURMOIL

Scandinavian Reports Have Premier Again in Control of Petrograd

ONLY SMALL PART OF CITY HELD BY REBELS

Cossack Leader is Said to Be Dictator For South of Russia

(Associated Press Telegram) London, Nov. 14.—The arrival of Premier Kerensky in Petrograd, accompanied by troops, is reported by the Russian legation at Stockholm, according to an Exchange Telegraph dispatch from Copenhagen. M. Kerensky is said to have defeated the Bolsheviks.

(Associated Press Telegram) Stockholm, Nov. 14.—Premier Kerensky has entered Petrograd, according to a dispatch received from the correspondent of the Swedish News Agency at Haparanda on the Russian border. The majority, or Maximalist troops, have joined the premier, the correspondent adds.

(Associated Press Telegram) London, Nov. 14.—The Finnish Telegram bureau says the whole of Russia, except a small part of Petrograd, is now in the hands of the provisional government.

Premier Kerensky is now in Petrograd and has taken virtually the entire city, the announcement of the Finnish Telegram bureau says. Moscow is the headquarters of the provisional government and Premier Kerensky has issued orders from Moscow which have appeared in the Petrograd papers. The anti-Bolshevik papers of Petrograd as well as the Helsingfors newspapers have headlines announcing that the Bolshevik movement is nearing its downfall.

General Kaledines, the Cossack leader, is said to be dictator of southern Russia. The orders of the provisional government are issued by M. Kerensky, General Kaledines and General Korniloff.

A Russian wireless dispatch says no official report from army headquarters has been issued today. Travelers arriving from Petrograd, the Finnish Telegram bureau reports, say that when they left the capital there was fighting in the streets between the Bolsheviks and the population. The Petrograd press was reported to be deserting the Bolsheviks and the allied embassies were said to have got into touch with Premier Kerensky. The people of Petrograd, the travelers said, were turning down the Bolshevik proclamations and hooting their leaders on the streets.

According to these advices which were received in a cablegram filed at Stockholm at 1 o'clock yesterday afternoon, Premier Kerensky defeated the Bolsheviks at Tashkent. The Cossacks are reported to have destroyed the red guard. The (Continued on Page 2, Col. 1.)

FRENCH MINISTRY QUILTS; CONFIDENCE VOTE IS DEFEATED

(Associated Press Telegram) Paris, Tuesday, Nov. 13.—The Poincare ministry was defeated by direct vote in the chamber of deputies today and later resigned. This is the first time since action has been taken by the chamber since the beginning of the war, as up to the present it has been a point of honor with many deputies not to vote against the government but to express criticism by abstaining from recording their votes.

Strong satisfaction with the government's handling of the Bolo Pasha affair was held to be the motive which changed the passive discontent to active opposition. Two other things thought to have had a part in the downfall of the Poincare cabinet were the premier's statement exonerating M. Malvy, the former minister of the interior, and the finance attending the prosecution of L'Action Francaise, edited by Leon Daudet, the accuser of M. Malvy.

The ministerial crisis comes on the eve of the inter-allied conference here and every effort will be made to settle it quickly. President Poincare will begin consultations with political leaders tomorrow morning.

(Associated Press Telegram) Paris, Nov. 13.—The senate today voted to refuse the immunity of Senator Charles Humbert, owner of the Paris Journal. This is to allow Bolo Pasha, under arrest for espionage, to institute proceedings against Humbert.

Bolo Pasha has charged that he loaned money to Senator Humbert in order to complete the purchase of the Journal. He also has accused the senator of keeping 43,630 francs. Senator Humbert last week asked the senate to approve the suspension of immunity, after he had explained to an examining committee how he had employed the money Bolo accused him of keeping.

How You Can "Do Your Bit"

On washday, cut down your hours of labor by washing in the Fels-Naptha way. Fels-Naptha washes without rubbing, cleans by its own action on dirt, while you are getting other tasks accomplished. You can easily save two hours on washday by using Fels-Naptha.

GEN. GLENN SAYS Y. M. C. A. DESERVES ALL THAT IT ASKS

Boys at Camp Sherman, As Well As in the Other Training Quarters, Need Help of Folks Back Home.

Camp Sherman, Chillicothe—"The \$35,000,000 fund which the Y. M. C. A. is asking for, November 11-19, is not half enough. The Association can spend four or five times that amount and receive actual returns. There is no organization that better deserves everything it is asking, than the Y. M. C. A."

This statement from Major-General Edwin F. Glenn, of Camp Sherman, was made at the dedication of the immense Y. M. C. A. auditorium, located near the center of camp. There were

MAJOR-GENERAL EDWIN F. GLENN.

present large delegations of business men who came to Chillicothe to see for themselves the valuable work being done by the Red Triangle among the soldiers.

"My conception of the Y. M. C. A.," continued General Glenn, "is that it is a character builder. Through quiet, patient effort this organization is reaching the minds of the men and building character each day. It gets

KERENSKY AGAIN REPORTED ON TOP IN RUSS TURMOIL

(Continued from Page 1.)

Telegraph lines are now in the hands of the Bolsheviks, the Telegram bureau reports.

The provisional Russian government referred to the foregoing is the government of Premier Kerensky, which the Bolsheviks attempted to overthrow.

For the last three days reports have been coming in from Scandinavian sources of the defeat of the Bolsheviks, but they have been contradicted by wireless dispatches from Petrograd.

This is the third time that an account has been received of a battle at Tsarskoe-Selo, a Kerensky had overthrown the Bolsheviks twice and Bolshevik success on the other occasion.

The Finnish Telegram bureau's

sorry for the man who has never been in a Y. M. C. A. building here, if there is such a man."

The boys at Camp Sherman are much interested in the success of the campaign for War Work funds. Hundreds of the men have voluntarily written letters to the home folks, requesting the many practical ways in which the Red Triangle is serving in the camps at home and abroad.

Advices so closely parallel the dispatch received on Sunday and Monday, asserting that Premier Kerensky had overthrown the Bolsheviks as to suggest that they may be a delayed version of the same reports, which were contradicted by the announcement received yesterday from Petrograd that the Kerensky forces had been defeated in a battle near Tsarskoe-Selo.

TURKS WITHDRAW.

(Associated Press Telegram)

London, Nov. 14.—The Turkish forces in Mesopotamia having withdrawn 30 to 50 miles north of Tektik, the British returned to their original positions, according to the plans made before the Tektik advance, says an official statement issued today.

VILLA IS DEFEATED AFTER SHORT FIGHT; BULLETS FELL IN U. S.

(Associated Press Telegram)

Ojinaga, Mex., Nov. 14.—After two hours of fighting early today Francisco Villa's troops were driven away from this town by the Mexican government forces under General Juan Cordova. This was officially announced at the military headquarters here.

(Associated Press Telegram)

Presidio, Tex., Nov. 14.—Fighting between Villa forces and Mexican government troops began at Ojinaga at 5:20 a. m. (central time.) The attack started from the southwest and grew gradually with the approach of daylight into a constant fire of rifle shot. No artillery, machine guns or hand bombs were used in the first attack.

American patrols are guarding the ford opposite Ojinaga. It is reported bullets are falling on the American side of the Rio Grande.

Firing on the Mexican side continued until daylight. Then a machine gun from the Ojinaga garrison fired three volleys. Bullets continued to fall on the American side of the ford nearest to Ojinaga.

Refugees from Ojinaga started coming across to the United States and reported the fighting was outside of town. The attack apparently was against the main camp of General Espinosa y Cordova, one and one-half southwest of Ojinaga.

MOVIE MACHINE CO. INCREASES CAPITAL

Among the incorporations announced today was an increase in the capital stock of the Kinardt Company of this city from \$17,000 to \$25,000.

The Kinardt Company was recently incorporated by a number of Newark men and the investors to control the patents on a new motion picture machine. Among the features of the new motion picture machine is the absence of the annoying flicker, a saving in power and film footage. The increase in capitalization is to permit the further development of the machine which has proven highly successful in all tests.

The lease for the right of manufacture has not been let.

RELATIVES ASK COURT TO PROBE MANY DEATHS

(Associated Press Telegram)

Cincinnati, Nov. 14.—The Longview hospital inquiry has developed a mass of reports of cases from anxious relatives or friends who claim that they know of deaths under unusual circumstances. So many of these reports were telephoned to criminal court Judge A. K. Nippert all through last night that he secured very little sleep. Friends and relatives of patients who had died at Longview begged that their individual cases be included in the investigation. Judge Nippert asked all who believed they had information to appear before the grand jury.

From the stories over the telephone it was indicated that the jurors will hear charges of sensational nature. The authenticity of these reports, however, remains to be tested.

LEUT. MEER PROMOTED.

A dispatch from Camp Sheridan, Ala., announced the promotion of a number of commissioned officers and of a number of non-commissioned officers to commission officers. Among the promotions announced is that of First Lieutenant Paul Meeks of Columbus to captain. He is with the 112th Signal Corps.

The marriage of Miss Louise Norpell and Captain Meeks was solemnized at the Norpell home this summer.

GERMANS DEFEATED.

(Associated Press Telegram)

London, Nov. 14.—The Germans met with a complete defeat at the hands of the British yesterday in Flanders, the war office reports. An attempt to recapture the ground recently won by the British near Passchendaele was repulsed.

MARRIED MEN NOT EXEMPT AS CLASS ALL MOST REPORT

(Continued from Page 1.)

der conditions that will enable her to support herself decently and without suffering or hardship.

(c) Necessary skilled farm laborer in necessary agricultural enterprise.

(d) Necessary skilled industrial laborer in necessary industrial enterprise.

Class III.

(a) Man with dependent children (not his own) but toward whom he stands in relation of parent.

(b) Man with dependent aged or infirm parents.

(c) Man with dependent helpless brothers or sisters.

(d) County or municipal officer.

(e) Highly-trained fireman or policeman, at least three years in service of municipality.

(f) Necessary customhouse clerk.

(g) Necessary employee of United States in transmission of the mails.

(h) Necessary artificer or workman in the United States armory or arsenal.

(i) Necessary employee in service of United States.

(j) Necessary assistant, associate, or hired manager of necessary agricultural enterprise.

(k) Necessary highly specialized technical or mechanical expert of necessary industrial enterprise.

(l) Necessary assistant or associate manager of necessary industrial enterprise.

Class IV.

(a) Man whose wife or children are mainly dependent on his labor for support.

(b) Mariner actually employed in sea service of citizen or merchant in the United States.

(c) Necessary sole managing, controlling or directing head of necessary agricultural enterprise.

(d) Necessary sole managing, controlling or directing head of necessary industrial enterprise.

Class V.

(a) Officers—legislative, executive or judicial of the United States or of state, territory, or District of Columbia.

(b) Regular or duly-ordained minister of religion.

(c) Student who on May 18, 1917, was preparing for ministry in recognized school.

(d) Persons in military, naval service of United States.

(e) Alien enemy.

(f) Resident alien (not an enemy) who claims exemption.

(g) Persons, totally and permanently or mentally unfit for military service.

(h) Person morally unfit to be a soldier of the United States.

(i) Licensed pilot actually employed in the pursuit of his vocation.

Member of well-recognized religious sect or organization, organized and existing on May 18, 1917, whose then existing creed or principles forbid its members to participate in war in any form and whose religious convictions are against war or participation therein.

Legal and medical advisory boards now being organized in every community will aid the registrant in making his answers. He will indicate in what occupation he considers himself expert and from that list it is proposed to create separate groups of men trained in any particular trade or profession should the need arise for them.

The questions on the subject of dependents are framed to meet every possible circumstance and to draw out every bit of information that might be of value to the boards in fixing the class to which a man is to be assigned. No detail of the status of dependents, of possible or actual outside sources of income has been overlooked.

Seven days are allowed registrants after receipt of the questionnaire to fill it out and return it to the local board. Officials here believe that classification by the boards will be a routine progress requiring little time.

The registrant, after filling in the inside of his questionnaire, indicates on the front the class to which he believes he should be assigned. If the board agrees, there is no further action necessary by either party until the individual comes due for military service and is called up for physical examination. If the board disagrees, and places the registrant in another class, the machinery for appeal to this district board is set in motion automatically.

RESTAURANTS TO SERVE MEATLESS MEALS TUESDAYS

The restaurant men of the city are meeting in the Chamber of Commerce rooms this afternoon to take action towards a meatless day once a week. Although no definite announcement has been made the day selected will probably be Tuesday, and no meat will be served through out the entire day. This is in accordance with a request of the food administration committee of the state, and it will mean much if observed by the entire nation. The hotels of the city will also be included in meatless day and private houses will also be requested to observe it.

WET MAJORITY IS 1137 ALL OFFICIAL VOTES IN

(Associated Press Telegram)

Columbus, Nov. 14.—Complete official returns from each of the 83 counties received by the secretary of state, today showed that the wet vote were victorious in last week's statewide prohibition election in Ohio by 1137 votes. The official wet vote was 523,727, and the official dry vote was 522,590.

RECEIVER FOR WATER PLANT.

(Associated Press Telegram)

Ada, O., Nov. 14.—The Union Savings Bank and Trust Company, of Cincinnati has brought suit against the Ada Water Heat and Light company for foreclosure of a mortgage and for the appointment of a receiver. The case will be heard in Kenton, Nov. 20.

BALLOON OVER BROWNSVILLE.

Newark and Eastern Licking county people this morning watched a large passenger balloon which sailed over the country from the northeast to the southwest. Its origin or destination were not known.

ALSACE CHILDREN SPEAK FRENCH; ADULTS STUDYING

American Training Camp in France, Tuesday, Nov. 13.—(By the Associated Press)—Emile Hovelacque, who is a member of the French mission to the United States, today visited the training centers and the headquarters of the American army. He was returning from a visit to Alsace where he had inspected the schools. He said that the children there are all speaking French now and that those who had been studying it for the last two or three years speak French as though they had been born in Paris. M. Hovelacque said that classes had been organized for older pupils and that many grown persons were studying French.

After inspecting the instruction camps and seeing the American troops at drill M. Hovelacque expressed himself as being highly pleased with the enthusiasm, energy and adeptness shown by the troops.

CHURCH CHANGES HOUR OF SERVICE TO SAVE FUEL

Greenfield, Ind., Nov. 14.—In an effort to save coal and electricity, the time of evening services of the First Presbyterian church here has been changed for the winter. The usual hour for evening service is 7:30 o'clock. Hereafter the Sunday evening sermon will be delivered at 4 o'clock in the afternoon.

BATTERY FUND

The Advocate's battery fund for the benefit of the Licking county men at Camp Sherman today amounts to \$211.40. The Advocate acknowledges a subscription of \$1 received from Mr. John S. Fulton.

LLOYD GEORGE WILL GET A CHANCE TO EXPLAIN SPEECH

(Associated Press Telegram)

London, Nov. 14.—Premier Lloyd George will be asked in the house of commons today by Former Premier Asquith for a statement in regard to his Paris speech, in which he spoke of the new inter-allied committee and the blunders which he said had been made by the allies in the past in the conduct of the war. The premier is expected to be present to reply but will defer a full statement until later, when an opportunity will be given to the house to discuss it.

The war cabinet is said to be at one with the premier in all the essential points of his Paris speech and the policy which it announced and to be prepared to hold to this policy. The attitude of the rank and file of the Unionists will have a considerable effect on the parliamentary situation, as Chancellor Bonar Law has always said he would not remain a member of the coalition cabinet unless he retained the general support of the Unionists. There is a good deal of criticism of the premier's new policy from the Unionists, although their attitude conceivably may be changed by the speech Mr. Lloyd George is to make.

Styles are many and fabrics pleasing—the smartness of our New Winter Suits and Overcoats are not equaled by the satisfaction they give

Good Clothes At \$20 and \$25

It is a great deal better to pay a little more than you expected and get a thoroughly good suit and overcoat, than to "save" on the price and get one that is unsatisfactory.

You would not miss the money for long—you would miss the quality always. Come in—Look—Try on.

17 BUILDINGS FOR SOLDIER'S FRIENDS WILL BE ERECTED

(Associated Press Telegram)

Camp Sherman, Chillicothe, Ohio, Nov. 14.—Immediate construction of seventeen buildings to be known as lodges, each to contain from 35 to 65 rooms and all to be a part of the Ohio women's auxiliary to Camp Sherman was announced today. They are to provide home accommodations for visiting relatives and friends of the officers and enlisted men of Camp Sherman. Three structures now are being erected and the fourteen others will be built so that most all of them will be ready for Thanksgiving Day crowds, while all will be completed in time to take care of Christmas visitors. The cost will be \$500,000.

Complete equipment has been purchased for the lodges and they will be fitted up such as dormitories for transients with rooms, meals, and other essential features of entertainment furnished at the minimum cost. Construction of the community club house where soldiers and visiting relatives and friends may find entertainment is well under way. It is being put up by the Red Cross. The Masonic fraternity has started a unit and another donated by the Young Women's Christian Association is under way. Popular subscriptions by Ohio women will be used to erect fourteen others.

To further this movement, membership tickets to the auxiliary society, accompanied by pamphlets explaining the purpose of the campaign will be distributed immediately to all soldiers in camp. They will be asked to mail these to their mothers, wives, sisters or women friends with a request that at least \$1 be contributed to the fund. No membership will be issued for less than \$1. It will make a sum equivalent to \$10 per soldier in camp to complete and provide accommodations for 700 rooms.

Direction of the work has been left in the hands of a Camp Sherman community committee, appointed by Major General E. F. Glenn and consisting of L. H. Warren, chairman, representing the war department committee on training camp activities; D. M. Massie, representing the Chillicothe war council; J. M. Tallen, representing the Red Cross and Captain E. T. Rhoades, of the construction department that had charge of the building of Camp Sherman.

Site of the community is within the camp and acquired by the war department and very convenient to all parts of the reservation. It will be the biggest community of the kind in the training camps of the United States. A million dollars eventually will be spent to make a place where visitors can get accommodations near their soldier relatives or friends at a minimum cost. Any income will be devoted to further development of the project and to the welfare of the families of soldiers of Camp Sherman, the official announcement says.

An expert in the new war risk insurance for the army and navy will be here in a few days to start the ball rolling to insure every selective draft man in camp.

Herbert S. Pichman, congressional librarian, Washington, D. C., was here today to survey the camp library project. His visit will be followed by a meeting Sunday of the American Library Association, which has selected Camp Sherman for a meeting place because of the high standard of work being done to give Ohio draftees a library. Organization work is said to be better under way here than in any other camp.

"THE WATER OF ETERNAL YOUTH"

The beauties of the Austrian court used a lotion which was so effective in keeping the face smooth and free from wrinkles, even the aged they named it "the water of eternal youth."

Some one recently has divulged the secret of this wonderful, though, exceedingly simple, wrinkle lotion, which in her gratitude she has similarly dubbed a preserver of youth: One ounce pure vasoline (dewaxed), dissolved in a half pint witch hazel—that's all there is to it. Any woman can get these ingredients. In her fragrances, put them together, and use the mixture with entire safety. To bathe the face in the same brings immediate results, even in case of the deeper wrinkles. It is also effective for hanging cheeks and double chin.—Adv.

A SAFE, EASY WAY TO CURE ULCERS

No matter how bad a sore or ulcer afflicts you, it is believed that Hokara, the pure skin healer, will cure it, but if it doesn't cure, the purchase price will be refunded.

Evans' Cut-Rate Drug store, the local agent for Hokara, who have sold hundreds of packages, say they have yet to find any form of wound or disease affecting the skin that Hokara does not heal, and its relief comes so quickly that those who try it are simply delighted with it.

Pimples, eczema, blackheads, acne, barber's itch, and all skin troubles are quickly relieved by applying this simple skin-healer and tissue-builder. It contains no grease or acids, and is cleanly to use.

Evans' Cut-Rate Drug store is selling a large package of Hokara for 35c.—(Advertisement).

SOLDIERS' LETTERS

Editor of The Advocate: As the impression seems to prevail in Newark that all Newark men are located at Battery B, we wish to submit the following list of men in Headquarters Company, 324th F. A. (Heavy), first, to correct this wrong impression and second, to safeguard ourselves on any boxes that may come in the future for the "Newark Boys," so as to assure our "pickins" in these boxes:

Barns, Alex. Mohlenpach, Fred.
Bennet, Geo. A. Papanek, John H.
Brady, James W. Ratz, William K.
Braun, Antonio J. Ryan, Emmor O.
Caessens, Wm. F. Sachs, J. W.
Couch, Edgar F. Schaefer, Geo. L.
Fleming, Forrest W. Shimmel, Jno. B.
Gahner, J. J. Thompson, S. H.
Green, Jas. E. Weller, John E.
Hutton, Harry R. Woodward, L. H.
Hornung, R. B. Woodruff, S. B.
Hull, Alonzo E. RAND SECTION.
Jones, Raymond W. Collins, E. L.
Klely, Francis M. Francis, Everett.
Lodge, Lawrence B. Klein, J. L.
Mayer, Neil

Of course you will understand that the main object of this letter is to give the people of Newark our correct address, the "pickins" are of course, merely a side (?) issue with us. We thank you. Yours very respectfully, "The Headquarters Bunch," Headquarters, Company 324th, F. A. (Heavy) Camp Sherman, O.

CORP. J. L. KLEIN.

John Lawrence Klein is now a corporal at Camp Sherman, O. He is with the 324th Regiment, Fifth Artillery (Heavy) band.

Editor of The Advocate:—I received the Licking county bronze medal for soldiers and wish to thank you for it and for making it possible for the Licking county boys to have such an identification badge. I appreciate the honor of being able to wear one. Yours, for Uncle Sam, Roy Crooks, Post Flagstar, 13 Co. Puget Sound, Washington.

Editor of The Advocate:—I would like to offer a few facts in regard to the drive for funds to be used in Army Y. M. C. A. work. A Y. M. C. A. is almost invaluable to an army camp. Below are a few figures which were given me by a Y. M. C. A. man of this camp: The building in his charge sends out on an average of three sacks of mail daily. They sell \$80 to \$100 worth of stamps daily. They give out to soldiers about 5,000 sheets of paper every day. They have classes in English for foreign men, free of charge. There is a library from which books can be drawn without charge. There is a tennis court and baseball ground. Then there are movies and various other forms of entertainment free of charge. They also have Bible classes in the batteries. I am glad Licking county is taking such an interest in this work and I believe its share of \$30,000 will be subscribed with no difficulty. Surely no one will ever regret helping along such a cause. I can say that the Y. M. C. A. certainly is doing splendid work in the army camps. Corp. Edgar F. Albright, Co. Battery, 124 F. A., Camp Sheridan, Ala.

WAR SAVINGS PLAN IS ANNOUNCED BY McADOO

Washington, Nov. 14.—Details of the government's new war savings plan, under which special stamps will be given in exchange for small loans, were announced last night by Secretary McAdoo.

The campaign for war savings will open Dec. 3, when the savings stamps, selling for as little as 25 cents each, will be placed on sale at postoffices, banks, railroad stations, schools, stores, cigar stands, office buildings, and a multitude of other easily accessible places.

"This plan," said Secretary McAdoo, "puts within reach of every class of the American people, however small their means, the opportunity of saving their money, however small the amount, and lending it to their own government at 4 per cent per annum, interest compounded, with the right on their part to have their certificates cashed by the government at any time at a sum in excess of the actual cost of the stamps they have bought."

STENOGRAPHERS NEEDED BY FEDERAL GOVERNMENT

The United States government is still greatly in need of stenographers and typists, and they will continue to hold examinations under the civil service to fill this need. At an examination held here last Saturday, 13 applicants took the test, and many made a splendid showing. A second examination will be held here on December 14, and to all passing the examination is practically assured a position paying from \$1600 to \$1200 a year.

Columbia Grafonola and Columbia Records

Columbia Electric
Grafonola, Price \$135

An Electric Grafonola at \$135

THE Grafonola which operates by electricity and requires no winding is rapidly growing in favor.

The electric motor of the Columbia is actually a part of the instrument and all the electric equipment is contained within the instrument.

This motor operates on either direct or alternating current and the connection consists merely of inserting the customary plug into an electric-light socket.

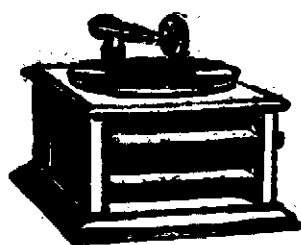

With the exception of the electric motor this Grafonola is the same in all respects as Grafonola at \$110. Other electric Grafonolas at \$185 and \$240.

Whether it is an electric or a spring-motor instrument that you finally decide to buy you can be certain that you have bought the phonograph that suits you best only after you have heard the Columbia Grafonola.

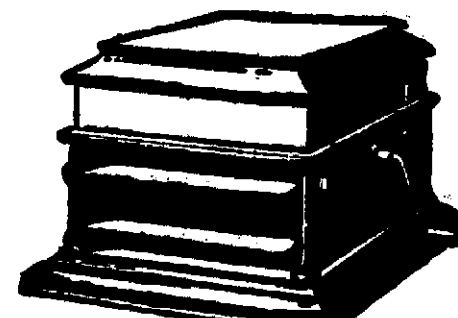

The people who have not bought Columbia Grafonolas are in almost every case the people who did not hear the Columbia and compare it before they ordered.

Let your decision on what phonograph you buy have all the advantage that a visit to one of the many Columbia salesrooms will give.

CONCEALING HIGH PRICES.

Tricks in all trades but ours
Prices don't always go up when costs go up. The producer has his little bluffing ways of making you think he isn't advancing prices when he is.

For instance, many cakes of soap are now made hollow. They look just as large and handsome as ever. After you use them awhile, you work into a hole and perceive that the interior is nothing but thin air. Balls of string and yarn are made around a large core, so that there is nothing but a crust of twine about the empty center. Thread runs more than ever to wooden spools, with a thinner layer of cotton and silk than before. In every business the effort will be made to conceal the fact of price advances.

Up to a certain extent this is, of course, legitimate. When flour goes up it is as fair for the baker to cut down the size of the loaf as to advance the price. There is no cheat about it since the difference should be obvious to any observant eye. But in so far as these dodges conceal the cheapening or the skimping of materials, they are dishonest. The public wants to know plainly and squarely what the price advances are, and it does not wish to have inferior goods put over on the pretense that they are the same old article.

It won't help anyone's trade to work off good in any deceptive way. Some of these little tricks are of trifling importance. But they tend to promote dishonest standards in business.

The people, principally responsible for them, seem to be the original producers. Retail dealers are usually too close to their customers to try funny business. Producers seem to think the public don't mind a little humbug. Thereby they are much in error.

DISTRIBUTING MILK.

The rise in price of milk has been one of the ominous features of the high prices. Milk distribution systems are so notoriously unscientific that it is the public's own fault if it pays an unreasonable price.

It is perfectly ridiculous that in most towns half a dozen or more milk carts will run up and down the same street. There is but little need of the milk cart. The public has been educated by high price, to carry home a large part of the purchases it makes. Why not milk also?

Milk depots are being started in many large cities to distribute milk to all comers for 10 cents a quart where it has been 14. In towns nearer the source of supply it could be sold for less. If the milk-wagon is cut out, the cost of milk can be reduced a third.

From the desperation with which the German fight, it is suspected that they fear the right of self-government will be forced upon them.

ASTRONOMICAL EVENTS.

Sun on the meridian of Washington at 44 minutes 29 seconds after 11 o'clock. Planet Mercury invisible for very dim. Venus bright.

WHY GIVE TO ARMY Y. M. C. A.?

Down at Chillicothe there are nearly 35,000 American boys getting ready to go to France. Three hundred of them are Licking county boys. Down in Alabama there are other thousands, including a number from Newark. Over in France there are many, many thousands among them, nearly 100 from good old Licking county. And in the army camps all over America may be found men from this locality.

These young fellows have left homes as comfortable as yours to live in rough wooden barracks or tents. They have left good jobs—many of which paid as high as \$10 a day—to work for Uncle Sam at a dollar a day. These boys sleep on army cots. They have plenty to eat and it is good, plain food. Each man washes his own dishes after every meal. Each man washes his own underwear and shirts and socks and sews on his own buttons. They pace back and forth on sentry duty, day and night, in driving rain and lush and snow. They dig ditches for drainage and zigzag trenches for army maneuver practice, all to get ready for the grimmer duties awaiting them in France.

And for those boys who have thus left their homes, to protect our homes, there is almost no whole-some relaxation or recreation to lighten the monotony of daily drill and march and picket duty, except what is provided, under special government sanction and with full government approval, by the Y. M. C. A. And what does the Y. M. C. A. do for them? At Chillicothe it has built nine large halls, one for each regiment, where, when off duty, these boys can go to write letters home or sit beside a fire and read books and magazines—where writing paper and envelopes and pens and ink are furnished free—where they can buy stamps and money orders—where they can go in the evening and see motion pictures, hear hand concerts and talented singers, attend lectures and watch boxing and wrestling matches.

Nothing can take the place of home, but for those boys who are homesick the Y. M. C. A. comes nearer to it than anything else. It is the soldier's club. It breaks the lead monotony. It takes his mind away from the dull routine of camp life. It gives him rest and comfort and inspiration.

At every Y. M. C. A. hall there is a secretary, an athletic director, an educational director and a religious director. Every soldier is encouraged to play baseball, football, basketball, or volley ball. It is planned to teach boxing to every man in Chillicothe, and Johnny Kilbane of Cleveland, champion featherweight, is now giving boxing instructions to the soldiers there under the auspices of the Y. M. C. A.

GOOD ROADS CAMPAIGN.

The people in Newark will be interested to learn the results of the recent remarkable campaign for better roads in Wichita county, Texas. In this section, as in many places, the good roads movement encountered the opposition of the taxpayers. The roads were poor, and their condition was a burden on the farmers. But road-building costs money and the people couldn't see how they could get it back.

The estimate on a comprehensive plan of improvement was \$750,000. A few public-spirited men got together and decided the thing could be put over. They arranged a card index of the voters, and planned a thorough campaign for rousing public sentiment.

Their figures showed that to keep up interest and principal payments on the debt would cost \$56,500 a year. Then they found the county was already putting out \$68,000 a year to keep its poor roads decently passable. So, after making the necessary annual debt payments, there would still be left a fund of \$8000 a year for maintenance of the new roads. That would leave a balance that would care for the old dirt roads.

This made the situation look different to the voters. They went to the polls and sanctioned the bond issue by a vote of 1648 to 410. Now the county is getting a general system of hard roads. These will reduce the cost of trucking to the farmer. It should have an appreciable effect on the cost of living in the towns. Farmers will sell their produce more freely if it becomes easier to get back and forth with their teams.

A district with good roads looks very attractive to people seeking farms or country residences and they will pay more for real estate. In a few years Wichita county should be able to levy higher taxes. Such experiences as this should silence the "it-can't-be-done" crowd.

When Kaiser Bill left hundreds of millions of German property over here where our government could

The Y. M. C. A. educational directors at Chillicothe have organized 86 classes of soldiers of foreign birth who cannot speak or write English, and have provided 86 teachers to teach them the English language. Teachers of French have also been secured and 2000 of our men in that one camp are studying French.

In addition to the nine large halls mentioned above, the Y. M. C. A. has also built a huge auditorium where 4000 men can congregate at and time for lectures or music or theatricals, an also a main administrative building, making 11 buildings in all at Chillicothe.

The cost of these buildings was \$117,000. From these buildings in October the soldiers mailed 936,000 letters and 375,000 postal cards. In that one month, 2,500,000 sheets of letter paper were given to the soldiers without cost to them. The attendance at entertainments during October was 95,000, or an average of over 3000 a day.

And the Y. M. C. A. war work for those boys—giving them cheer and comfort, relieving the strain and monotony, making them better fighting men—only starts at Chillicothe. It follows them to an eastern port when they embark for France. It goes with them on the transports. It is with them at the training base in France. It is with them when they are on leave in Paris. It protects them from insidious temptation. It keeps them from contracting diseases that would blacken their blood and wreck their lives. It follows them to the base just back of the lines, goes with them to the front-line trenches, and is waiting for them with steaming hot coffee or tea and tobacco when they crawl back wounded from No Man's Land.

What is true of the Y. M. C. A. at Chillicothe is true of every one of the military camps. It would be a calamity to stop the Y. M. C. A. army work because it gives our boys a service they deserve and a service they need. It puts spirit in them. It makes them contented with their job. Licking county is asked to give \$30,000 to the \$35,000,000 Y. M. C. A. fund to carry on the Y. M. C. A. work until next July. Who is there that is not eager to give his dollars for such a work as this?

Old Newark is making a fine record in the Y. M. C. A. campaign. It is another little bit of evidence of the high regard in which we hold the boys who have gone out from our homes to fight for us.

Keep this clearly in mind: We are fighting for America and against Germany; that one is either for or against the United States. There is no middle ground. These days America has no use for the man who says: "I am an American, but—"

seize it, it never occurred to him that our folks would care about such a little thing as sinking a lot of our ships.

Up to date the hotels and restaurants haven't made any extra charge for water, but, no doubt they'll attend to that detail soon.

The Russians can't fight because they want peace, and they can't have peace because they won't fight.

A dearth of chestnuts is reported this fall, but it hasn't been noticed at the musical comedies.

Some people patriotically keep warm and save fuel by lying a-bed late in the morning.

INSPIRATION FOR ITALY.

(Pittsburgh Gazette Times.)
The effect of arrivals of French and British soldiers on the Italian front should be instantaneously beneficial to the Ally cause. It is doubtful if any large force can be spared from the Western lines and questionable if they could be transported to the relief of General Cadorna if they were available. Numbers, however, are less important as an inspiration to the Italians than comradeship and the evidence presented of sincere concern for the safety of Italy. The psychological effect of the French and British flags waving with the Italians over the lines of defense will be great. The Italians will feel they are not alone. If the support is little more than moral it will be none the less potent. Cadorna's men will be heartened. They will exert themselves to stay the onrush of the enemy. They will take pride in exhibiting to the allies from the West the prowess of which they have boasted. Their great respect for French and British valor will stimulate their spirit of emulation. We may expect them to hold the Austro-German hordes. Then they will be ready to begin beating back the Teutons. With new plans of co-operation by the Allies growing out of the Paris conference in effect, they will be assured of help when they need it. Knowledge of this will prodigiously strengthen them. It will offset the advantage to Germany of the recent push and largely cancel whatever benefit the Kaiser's crowd might gain from the Russian situation.

Read Advocate Want Ads Tonight

GERMAN-AMERICAN LOYALTY.

(By C. Kotsenabe.)
My emotions tell me one thing at this awful time, but my reason tells me another. As a German by birth it is a horrible calamity that I may have to fight Germany. That is natural, is it not? But as an American by preference, I can see no other course open.

For 25 years Germany has shown dislike for the United States—the Samoa affair, the Hongkong contretemps, the Manila Bay incident, the unguarded words of the Kaiser himself, and, lastly, the Haitian controversy in 1914. And it has not been from mere commercial or diplomatic friction. It is because their ideals of government are absolutely opposite. One or the other must go down. It is for us to say now which it shall be.

Because of my birth and feelings beyond my control I have no particular love for the French and less for the British. But by a strange irony of fate I see those native-giving blood for principles which I hold dear against the wrong principles of people I individually love. It is a very unhappy paradox, but one I cannot escape. I do not want to see the allies triumph over the land of my birth. But I very much want to see the triumph of the idea they fight for.

It stinks my soul to think of this Nation going forth to let destroy people many of whom are bound to me by ties of blood and friendship. But it must be so. It is like a dreadful surgical operation. The militaristic, undemocratic demon which rules Germany must be cast out. It is for us to do it—now. I have tried to tell myself that it is not our affair, that we should have contented ourselves with measures of defense and armed neutrality. But I know that is not so. The mailed fist has been shaken under our nose before. If Prussianism triumphs in this war the first will continue to shake. We shall be in real peril, and those ideas for which so much of the world's best blood has been spilled through the centuries will be in danger of extinction. It seems to me common sense that we begin a defense by immediate attack when the demon is occupied and when we can command assistance.

These is much talk of what people like me will do, and fear of the hyphen. No such thing exists. German-American is as staunch as the American of adoption of any other land and perhaps more so. Let us make war upon Germany, not from revenge, not to uphold irritating quibbles of international law, but let us make war with our whole heart and with all our strength, because Germany worships one god and we another and because the lion and the lamb can not lie down together. One or the other must perish.

Let us make war upon the Germany of the Junkerham, the Germany of frightfulness, the Germany of arrogance and selfishness, and let us swear not to make peace until the Imperial Germany Government is the sovereign, German people.

FIGHT FOR PROHIBITION.

(Columbus Dispatch.)
With the official tabulation completed in every county, the wets have prevented the adoption of the prohibition amendment by the small majority of 1723. There were 522-426 votes for prohibition, and 524-153 against it. This shows a dry gain of 53,785 in the last two years. The final checking of figures by the secretary of state may make slight changes in the totals. The drys are assured that more liberal contributions than ever will be made for their cause in the fight to be waged for prohibition in the state next year. They will enter the contest with more enthusiasm and more prospect of success than ever before. Vote has kept the state out of the Hamilton county, whose reported vote has kept the state out of the dry column this year, showed the biggest dry gain of any county, this gain being approximately 11,000. This is the only satisfaction the drys get out of the county.

The drys made gains in every county which varied from two years ago, and carried four of these counties, Franklin, Mahoning, Putnam and Stark. Mercer, which went dry two years ago, returned a wet majority of 282 this year.

THE WAR OUTLOOK.

(Philadelphia Record.)
We are not at all impressed with stories about the fitness of Germany to go on with the war indefinitely. It is a fact that Germany is better off than ever before in its history. Germany is still able to fight for some time, but in men and guns it has been inferior to the allies on the western front for a year and a half. It has not had good crops in a single year since the war began, and civilians and soldiers are suffering from the quality and the lack of food.

The victory in Italy may be admitted to be the most important military success of the war. But Germany cannot help Austria without depleting its insufficient western forces, even if most of the troops sent to aid Austria come from the eastern line. Germany has a good army in the east for a good while, but the Italian collapse was pronounced by German money and German agents; it is not very likely to be repeated. At any rate, Italy has a large army in probably good condition, and has received French and British reinforcements.

The allies, even without the United States have the larger population to draw on for soldiers; if they are better provided with artillery than the Germans it is because the Germans are running out of supplies, and the difference against them will grow from month to month. The German people supply this war, but they are generally finding out that they are not likely to win, and the sharp political controversies in Germany grow out of the fact that a large part of the population are willing to give up their hopes of conquest to secure peace. That proves a considerable degree of discouragement, and that

CARRY YOUR GRIPS, MA'AM?

discouragement will become greater. The resources of the allies are sufficient to break the German power by the process of attrition, if no other, and the gains of the British and French justify the expectation of decided, and even decisive, military advantages on the part of the allies. The United States is a tremendous factor, which has hardly begun to be felt yet. There is no doubt about the result, and it will not take several years to achieve it.

RESPECT FOR ANTHEM AND FLAG.

(New York World.)
The preparations in Baltimore for a patriotic protest on the occasion of the Boston Symphony concert here indicate that the orchestra's all tour of eastern cities will serve as the incentive for a popular outburst of American sentiment over "The Star Spangled Banner." Behold how great a matter a little fire kindleth! Dr. Muck's lack of tact with regard to playing the national anthem has inspired a new demand for it and made its performance by orchestras the "musical equivalent" of a pledge of loyalty.

When the excitement subsides it is to be hoped that something may be done to enforce a more general respect for the American flag. Most people rise when "The Star Spangled Banner" is played at a public assemblage, but what proportion of the crowd in the street salutes the flag when it is borne past in procession? Some recently uncovered, but for the most part people stare stolidly at the national colors with no more outward expression of respect than if a sandwich-man were passing. Whether the neglect is due only to thoughtlessness, as it mainly is, it is offensive to the instincts of patriotism.

There is too much of this slovenly Americanism, too little frank and open respect on the part of various elements of the population for the symbols of national unity in time of war. If no distinguished alien, preferably of Prussian birth, feels inspired to fill Dr. Muck's role and start the movement, some patriotic society should start it, for the dignity of the country and the greater veneration of its colors.

A MONSTER CABLE.

(Electrical News.)
One of the longest and largest telephone cables to be laid on the ocean bottom was completed this summer across Raritan Bay between Ellenville, Staten Island, N. Y., and Kearnsburg, N. J., a distance of 5.5 miles. This completed an all-cable toll line 50 miles long between New York City and Spring Lake, N. J., and certain ocean counties. This line replaces 3,000 miles of open telephone conductors and removes 13,000 cross arms from poles. There are submarine telephone cables on the Pacific Coast and across the English Channel which are longer than the Raritan Bay cable, but they contain only from two to sixteen pairs of wires, as compared with the 74 pairs of wires transmitting telephone calls and the 12 pairs of wires for testing purposes which are in the Raritan Bay cable.

QUAKER QUIPS.

(Philadelphia Record.)
Faint heart never won fair lady, and sometimes lives to rejoice in the fact.
It takes more than grease paint to enable an actor to make up for lost time.
When a fellow has money to burn the confabulation is generally of incendiary origin.
Marriage is a lottery. Many a man wins a woman that he doesn't know what to do with.

THE ADVOCATE'S WATCHING DOG

There is one's trade and one's family, and beyond it seems as if the great demon of worldly-mindedness would hardly allow one to bestow a thought or care.—Matthew Arnold.

Our Language.
"Our language is a kind of hash," Resignedly said Uncle Josh; "For we call m-a-s-h, mash, While w-a-s-h, is wash."

Aunt Caline says:—I went into Rattenberg's store up in Newark 'other day, an fust thing I run into Etta Hogg a-standin' at the counter a-examinin' table cloths which she couldn't seem to find exact what she wanted an' the pore clerk was stumple wore out a-showin' stack after stack o' table cloths. So at last he flang down on the counter some she hadn't sawn an' says he, "You will observe, ma'am, these here are the very latest style," he says. "You will see the edge runs clean around the cloth," he says, "an' the center is in the very middle," he says. "Oh," says Etta, "that is something knew. I'll take that," she says.

The Young Idea.
"Maw?"
"Yes, dear."
"Is flat silver the kind they use in apartments?"
"I wish you could be brought to realize that children should be seen and not heard."

Did You Know
That John Pounds, a poor shoemaker at Portsmouth, England, originated the idea of Ragged Schools? For twenty years up to the time of his death in 1839, he

gathered the ragged children of the district around him as he sat at work. In 1838 London had a Ragged Sunday school, which eventually became a free day school. Field Lane followed in 1843. But the first ragged feeding-school was opened in 1841 by Sheriff Watson in Aberdeen. In 1845 Dr. Robertson, not then aware of the existence of Sheriff Watson's, opened a similar school in the Vennel, Edinburgh. Soon afterward Dr. Guthrie's famous "Plea for Ragged Schools" appeared, a work which gave an irresistible impetus to the movement, and caused the author to be generally regarded as the father of ragged schools. The Ragged School is a voluntary agency providing education for destitute children.

Watch Your Diet.
An apple a day keeps the doctor away. And that seems a sensible tack. But some I have met are apt to forget. That a lobster a night brings him back.—Kansas City Journal.

She's a debutante, he is a rising M. D., And she clearly knows what she's about; Each day apples she spurns And for lobster she yearns, In her madness there's method, no doubt.

The Chicken That Will Go Home to Roost.
Vermont still produces more granite than any other state in the Union, if the Kaiser wants some to bite.—Boston Globe.
He probably had this in mind when he called in the American dentist and had his teeth all fixed up.

Not a Bit.
"This isn't fair, now is it men?" Demanded Henry Heeder, when "Crisp" widows are in clover, when Real widows are in weeds.—Luk McLuke.
Men, pity not too much the real Widow, for all she needs is just a little time and she'll exterminate her weeds.

SAM BROWNE BELT.

(Brooklyn Standard Union.)
The Sam Browne officer's belt, the use of which in this country has been forbidden by the War Department, is a distinctive English article of military equipment. It takes its name from Gen. Sir Samuel Browne, V. C., G. C. B., a cavalry officer who fought in India and lost his left arm and strapped the empty sleeve across his chest. The shoulder strap of the belt takes the weight of sword or sabre and gives a natty appearance. All British commissioned officers are entitled to wear this belt, and it has been used in four wars. General Pershing has ordered its use by his officers in France, and those here eager to wear it will have to hasten overseas.

POINTED TRUTHS.

(Detroit Free Press.)
Health like many a bank account, is too often overdrawn.
Women don't seem to care much what the fashion is so long as it is conceded to be fashion.
The average young fellow is always hoping that some day he'll find a fortune ready-made.
The trouble with most of us that we want to have handed to us the luxuries that other folks have worked years to earn.
The poorest way in the world to get along is to neglect the little task you have to do because you know you're capable of doing the bigger things.

Pointed Observations

Henry F. Davison says the war is going to be won by America if it takes 15,000,000 Americans to do it. And 15,000,000 Americans will be found ready to back up his statement.—New York World.
Come what may, says the Kaiser, we are able to confidently look the world in the face. Still guilty of frightfulness, even in splitting an infinitive.—Baltimore American.

Whenever the schools get into politics the children suffer. The New York campaign furnished a good sample of a bad example.—Savannah News.

Between the instigation of New England strikes and the poisoning of large flocks of sheep in Arizona, German agents cover a big field and miss no opportunities.—Boston Herald.

The Bolsheviks lost in Chicago and New York, but they seem to have won for a time in Petrograd.—Chicago Herald.

Experts in the terpsichorean art are of the opinion that the foxxy Trotsky will have a very short reign of popularity in Petrograd circles.—Washington Post.

Don't allow a fellow to point a gun promiscuously. It may not be loaded, but the man behind the gun may be.

SUGAR SHORTAGE IS ACUTE; WHOLESALE DEALERS HAVE NONE

There is no sugar in Newark and the shortage is serious as the government can give assurances as to when it will be shipped from the refineries.

Restaurants will soon run out of their supply; in fact, several have only enough for a few more days. There is not a pound of sugar in any wholesale house in the city and nearly every grocery store has sold its supply. There are a few who still have a little on hand and they are limiting customers to two pounds.

George B. Sprague, of the Sprague Grocery company, will leave tomorrow for Detroit for the government's distributing point for sugar for this section of the country. An effort to have a carload shipped immediately. The firm has had an order in for weeks but cannot even get a reply to its telegrams of inquiry. The Sprague company has a hundred calls a day for sugar.

Fleck & son have had a sugar order standing for some time and can receive no word from the government, or no assurance as to when the next shipment will be made. All sugar is now controlled by the government. The output and prices are regulated by the Federal Reserve. The best sugar plants are working day and night, but will never be able to catch up with the orders.

SOCIAL EVENTS

(Society Editor, Auto Phone 23124.)

Just fifty years ago today, November 14, 1867, a happy throng gathered at the Roley homestead, one mile south of Jacksonville, to attend the wedding of Miss Emma J. Roley and Mr. Robert Meredith of Linville. Today the same old homestead is resplendent in a riot of gold and yellow in celebration of the golden anniversary of Mr. and Mrs. Meredith.

While the arrangements are informal, about one hundred and twenty-five guests are being entertained by Mr. and Mrs. Meredith in celebration of the fiftieth anniversary. Their charming home is aglow with the feathery heads of huge yellow chrysanthemums arranged with white chrysanthemums in French willow baskets. The same color tones are carried out in the appointments of the "bridal" table where the bride and bridegroom of fifty years and their family will be served.

The wedding of Miss Roley and Mr. Meredith was a delightful event and following an absence of 18 years, the desire to have the old Roley homestead prompted Mrs. Meredith's father to purchase it for her and she has since made her home in the house where she was wed. They were the parents of two children, C. R. Meredith of the home and Mrs. George N. Brown of Hebron. There are also three grandchildren, Frances V. Meredith, Robert Meredith, Jr., and Emma Elizabeth Meredith.

While Mr. and Mrs. Meredith have reached the fiftieth mile stone in their wedded life both are enjoying excellent health. Mrs. Meredith was 68 years old the fifteenth of June, while Mr. Meredith celebrated his 71st birthday the fifth of July.

An impromptu program of music and reading featured the afternoon following a wedding dinner of beautiful appointments. A number of out of town guests were in attendance, and many telegrams of felicitation and congratulation were received during the day.

Mrs. William Davidson entertained the Social Welfare club on November 6, at her home in Hoover street. After the business was transacted an interesting contest was held. Mrs. White and Mrs. Richardson winning the prize. A delightful lunch was served the club members and one new member was added, Mrs. Deem. The club will hold its next meeting with Mrs. Charles Eichen in Prior avenue.

A delightful masquerade surprise party was given at the home of Mr. and Mrs. M. B. Schenk in Beech street, Monday evening, the occasion being the birthday anniversary of the hostess. A rube band led the guests and the hours were de-

voted to music and dancing and a luncheon was served. The guests were: Mr. and Mrs. John Adkins, Mr. and Mrs. Charles Hinger, Mr. and Mrs. Charles Haslop, Mr. and Mrs. W. S. Fletcher, Mr. and Mrs. Florida Fletcher, Mrs. E. D. Hollister, Misses Louise and Buelah Adkins, Elizabeth Hinger, Messrs. Bud Hinger, Arthur and Charles Hollister, Ivan Potter, Rudy Schenk, S. B. Schenk, and Master Fred Cleveland.

OBITUARY

Mrs. Helen Ann Blair, widow of John W. Blair, died at her home, 54 High street, Tuesday afternoon at 1:30 o'clock. Death occurred following an operation several weeks ago.

Mrs. Blair was born in Hudson avenue, Newark, and was the daughter of the Hon. Lewis Evans, who for many years was active in civic affairs and in political circles. He held offices of mayor and sheriff and was a member of the House of Representatives. Mrs. Blair was aged 65 years, July 10, and is survived by one son, Lewis Blair of Columbus.

The funeral services will be held on Thursday afternoon at 2 o'clock at the Second Presbyterian church, the pastor, Rev. Don Tullis officiating. Interment will be made in Cedar Hill cemetery.

Funeral of Mrs. G. T. Nash. The funeral of Mrs. G. T. Nash will be held Thursday at 2 o'clock at the home, three miles north of the city, on the Mt. Vernon road, Rev. Mr. Larson officiating.

Steve George, aged 31 years, died at the Sanitarium at midnight Tuesday, following an illness of double pneumonia. He is survived by his wife. The body was removed to Criss Brothers undertaking parlors. No arrangements have been made for the funeral services.

THE COURTS

Justice Scott's Court. Constantine Bordes, charged with embezzlement by Joseph Cosoma, was brought into Justice Fletcher S. Scott's court today, and after being arraigned had his hearing set for Friday afternoon at one o'clock.

Game Warden Busy. Deputy Game Warden E. T. Penrose filed an affidavit in Justice Fletcher S. Scott's court against Charles Collins, charging him with having a green pelt of a skunk in his possession out of season. The pelt was found on the porch of the defendant's home in West Newark and he charges that it was placed there by an enemy to try and get him into trouble.

Cross Petition. In the case of William M. Connelly vs. Myrtle R. Connelly, an answer and cross petition has been filed by the defendant, which she denies that defendant is a resident of Livingston county. For her cross petition she alleges extreme cruelty and gross neglect and failure to provide. She asks divorce, custody of children and alimony.

Wants Hotel Receiver. Caleb Betz, a minor, by his next friend, Caleb Betz, has filed a petition in Clerk Leo T. Davis' office against Lucille Betz, the petitioner reciting that they own jointly the Newark House which they have been operating as a hotel; that recently defendant entered suit for a divorce and has enjoined the plaintiff from coming to their place of business; that he has endeavored to make a settlement or division of property, but has failed on account of refusal of defendant. Plaintiff alleges that he fears defendant will run him into debt and prays the court to appoint a receiver so that the partnership can be dissolved and a settlement effected.

Case Dismissed. The case of the state against Oliver Holtsberry, charged with killing ducks before sunrise, was dismissed in the Justice court of Fletcher S. Scott yesterday afternoon, the state failing to furnish any one to prosecute, although the deputy game warden who made the arrest was present. The defendant was also present in court with his attorney, Link C. Russell, and a number of witnesses.

Every Day Etiquette

"How should the birth of my baby be announced?" asked Mrs. Youngmother anxiously. "The etiquette of birth announcements is definite," answered her mother. "A pale blue or pale pink bordered note contains the announcement of the arrival, the date and weight and the names of the parents. It is sent out within twenty-four hours after the birth to all immediate relatives and intimate friends. The folded sheet fits into a two by two and a half inch envelope which also has a narrow colored border."

The Delirium of Arabs. Observation by travelers and others who have visited in Palestine show that the Arabs of the Syrian Desert have an extraordinary fondness for tobacco. A few whiffs make them giddy and give them a headache. Even a cigarette is too much for them. A common smoke among Arabs consists of the dry leaves of a plant belonging to the genus *Hypocyanus*, and called by the Arabs "Sekkharan." It has fleshy leaves and purple flowers. The smoking of these leaves produces a sort of intoxication or delirium, which the Arabs prefer to the "white man's smoke."

The railroad brakeman is supposed to know almost as much about uncoupling as a divorce lawyer. We always admire a man's winning ways until he wins from us.

200 PACKAGES FOR SOLDIERS MADE UP BY THE RED CROSS

Two hundred Christmas packages which will make glad the hearts of 200 soldiers and sailors on Christmas Day, have already been sent from Newark to the distributing point, the Cleveland Red Cross headquarters.

In making up the packages the instructions of the Red Cross were followed and each was done in a khaki colored handkerchief. The packages contained tablets and pencils, hard candies, pipes and tobacco, books, toilet articles, and nearly all contained the name and address of the donor and many had kindly messages expressed in little notes which were enclosed in the packages.

These packages continue to come into the Red Cross rooms and it is desired to have as many as possible and the minimum number desired is one for every man who has left the city.

The work of knitting continues and a package of about four dozen sweaters and many packages of other knitted articles also were sent to the Cleveland headquarters.

ABOUT PEOPLE

Mr. and Mrs. J. R. Kellenberger went to Croton, this morning to visit Mr. and Mrs. William Kellenberger for a few days. Mr. Kellenberger will try his hand on the rabbits.

Mrs. M. I. Gregg of Cambridge, is visiting at the home of her niece and nephew, M. C. and W. M. Thurston, North Fourth street.

Mrs. C. D. Pennington of Hempstead, N. Y., formerly Miss Lulu Allison of this city, is the guest of relatives in Newark.

Mrs. William Kincaid and son Jack, Mrs. Tom Kincaid and nephew, Jack Rose, and Mrs. A. H. Marple and daughter, Lois, motored to Zanesville Tuesday where they were guests of Mrs. Samuel Butler.

Misses Helen Maybald and Olga Johnson were visitors in Columbus on Tuesday.

Milady's Boudoir

Care of the Nails. No hand will present the well groomed and cared-for appearance that good form demands, if treated only to a casual soap and water washing several times a day with an accompanying hasty use of a nail stick, and though, more than mere time, must be given to the subject if one is to make the very best of one's hands.

Cultivate the habit of turning the orangewood stick about whenever its point has been used, and to push back the cuticle around the edge of the nail with the blunt or rounded end of the stick. If this is done systematically, several times a day, the valuable half-moon at the base of the nail will always be in evidence, and the nails will maintain their correct shape. Then, when a sudden invitation comes to "fill in" will not have to spend a frantic half hour, pushing back the hardened cuticle, and perhaps acquire a sore finger into the bargain, trying to put the nails into presentable shape. Never clip the nails into shape unless you want them to become thick and coarse at the edges. Clipped nails also break off more readily, especially in cold weather. Every woman should have a pair of curved manicure scissors on her dresser, and they should be put to use seldom and then only for clipping a hangnail, or for cutting off the ends or sides of an over-long nail.

Our Boys and Girls

There are certain fundamental facts that should be known in feeding infants. The first and by far the most important is that there is no real substitute for mother's milk. The next best food to it, however, is clean, fresh, pure, raw cow's milk. Let me emphasize the essentials of wholesome cow's milk: Cleanliness, freshness, not over twenty-four hours old, purity and temperature from cow to customer.

All milk, not above suspicion, must be sterilized, or pasteurized. This should be done just before feeding at home, not one or two days before. Whole milk, diluted with barley water, oatmeal gruel or plain water boiled, meets a majority of the average feeding requirements. It is simple, requires little manipulation and there is nothing to be added but a few drops of cod liver oil.

But, as every baby has its individual requirements, each must be studied and its food modified accordingly.

Terrific. Pat (watching airplane's flight)—But what puzzles me, Tirence, is what the mischief keeps it up.

Terrific—Shure, 'tis little ye know, Pat Casey, us the terrific force av gravitation.—San Francisco Chronicle.

Even the skeptic may have a poor memory. He believes only half he hears, and is apt to forget most of that.

NUXATED IRON
100 FORFEIT
Increases strength of delicate, nervous, run-down people 100 per cent in ten days in many instances. It is the only iron tonic that is safe and pure. It is the only iron tonic that is safe and pure. It is the only iron tonic that is safe and pure.

HERE IS A STYLISH SHOE WITH A COMFORTABLE HEEL

You ladies of fashion will appreciate the qualities of this stylish Walk-Over model—the "Cavalier."

GRANVILLE

(Special to The Advocate.)
Granville, O., Nov. 14.—The A. F. F. W. continues with unabated zeal to turn out supplies for hospital and civilian needs in France, and has been commended for the fact that everything requested by New York or Paris headquarters has been supplied. Yesterday, the treasurer, Mrs. Ira Perry, reported a balance on hand of over \$84, the day's collections having been \$1, from Mrs. E. E. Hopkins, 50 cents, a friend, \$5, Mrs. Robert Owen, \$10, Mrs. J. S. Jones, 15 cents, collection box. Total, \$16.65. A check for \$15, received from Mrs. James A. Huston, was used in the purchase of 10 heavy suits of men's underwear, to which S. E. Marney added two suits. The treasurer also received a contribution from Mrs. H. D. Robinson of Conneville, O., containing six towels, six handkerchiefs, six yards of dress goods. The Three M's and I sent 12 comfort pillows and a tablecloth, and the King's Daughters, another bed comfort. Mrs. Ray, for the Red Cross, sold the large brown handkerchiefs, which are to be filled with articles for the soldiers' Christmas.

W. A. Ackley, last week, contributed 50 tubes of cold cream for the bags, and dozens of gifts from individuals are reported each week in the home paper. Mrs. Ray, for the Red Cross, stated that under the new ruling she could assume charge of the surgical dressings only after a course of intensive training in Cleveland or Cincinnati, and that it is her intention to take this course in Cleveland at once, and that she would be glad to have any other member of the Red Cross committee accompany her.

Letters from Lieut. LaRue Coker of Camp Sherman, to the president of the A. F. F. W., is given below: "My time has been so occupied that I have not been able to write you sooner. I have reported to my captain the results of your efforts and he begs me to state his appreciation in behalf of the batteries. Any funds that you may be able to raise can be either remitted to Captain Richmond, or to the editor of the Granville Times. We can hardly express to you our gratitude for the interest you take in this matter. I also want to personally thank you and the ladies of the A. F. F. W. for the box of stationery you gave me."

Mrs. C. T. Elder of Cleveland, who has been visiting her mother, Mrs. Ella Fraker, West Elm street, returned today to her home.

Miss Marian C. Grayson of Hartford, Conn., en route from the west, arrived in Granville last evening where she will visit Mrs. Marian Grayson Rose Johnson.

Deming Hopkins, son of Mr. and Mrs. E. E. Hopkins, who enlisted in the navy and has been awaiting the call to the naval training station, received the telegram Monday and left at once for the east.

Mrs. J. S. Jones, Mrs. E. M. Jones and Mrs. C. B. White, went to Columbus, Tuesday afternoon, for the concert of the Women's Music club. Denison home-coming is set for the week of November 24, when the Denison-Wittenberg football game will be played on Beaver Field. A big time is planned by the undergraduate and alumni Pan-Hellenic, with a banquet in the evening. Further announcements will be made later.

Mr. and Mrs. W. W. Wreckoff and little daughter of New York City, who have been guests for a few days at the homes of Dr. H. R. Hundley and Mr. and Mrs. L. A. Austin, left this morning for the east.

Mrs. Walter Livingston has returned from a five weeks' visit with her sister, Miss Betty Bonham in Piqua, who is convalescing after an operation for appendicitis.

CELEBRATE GOLDEN WEDDING

Mr. and Mrs. Robert Meredith of Thornville are today celebrating their golden wedding anniversary in the same home where their marriage took place fifty years ago today.

After last evening brought out the largest number of canvassers yet mobilized, for a vigorous campaign of Granville township in behalf of the army Y. M. C. A. fund. Everyone is ready for the drive which began today in good earnest.

Among the enlisted men of Granville township and members of the churches are the following: Harry Carney, Ewart Carney, Chas. Haskins, Jos. Haskins, Fred McColloim, Oscar Shutt, Hubert Shutt, Wikie Moody, Samuel Harrington, Lyn Atwell, John Price, Horton Buxton, Russell Griffith, Arthur Coulter, Arthur Jones, Eugene Flory, Harold Kier, Howard Davies, Geo. Thompson, Oda Haynes, Lewis Sunkle, Raymond Bash, Garold Haycock, Howard Williams, Fred Sheldon, Chas. St. Clair, Hayes Graham, Benjamin Hopkins, Paeker Tibby, W. E. Hopkins, Cary Sweet, A. M. Davidson, Harlan Nixon, Arthur Kinney, Dwight Samuels, E. Cory Boggs, Marshall Buck, Clifton Hall, James Hammond, Ernest Lamb, C. A. McCall, Harold Scott, W. D. Kies, Wilbur Heinrichs, Russell Adkins, Wilbur Carpenter, Roy Crooks, Alton Beers, Donald McColloim.

Special Sale of Cleaning and Massage Cream, a regular 50c value for the next few days 35c at MacEwen's Beauty Shop in The Arcade. 11-14-4-41

HARMONY.

Mrs. Sallie White spent from Tuesday until Friday last week at the Yeoman home in Galena.

The ladies of the Harmony Missionary Society will serve a chicken pie supper next Friday evening at the home of Mr. and Mrs. Elmer Shipley. Supper will be served from 5:30 on as late as you want it. Menu: chicken pie, mashed potatoes.

DO YOU WORK INDOORS

Then you need a winter tonic to keep up your blood-strength and nerve-force. For nearly fifty years physicians have prescribed

SCOTT'S EMULSION
because it is a true food and an active tonic, easily digested and free from alcohol. If you are run-down, if night finds you tired and sleep is not refreshing, by all means get Scott's Emulsion today. You need it.

Rasping Coughs eased with Dr. King's NEW Discovery for Coughs & Colds
That wrenching, tortuous tearing at the throat and lungs give away to ease and comfort through the prompt use of Dr. King's Discovery—the standard cough and cold remedy. It is a tonic to the head and nose freely. It goes right to the root of a cold—irritates the pharynx and eases the raw, feverish membranes. Contains no harmful, addictive and robbing the sore parts. Just the thing for baby's croup. The Kidde Bros. Inc. Your drug store sells it.

Dizzy? Bowed? Constipated?
Dr. King's new Life Pills cause a healthy flow of bile and rid your stomach and bowels of waste and fermenting food poisons. They are a tonic to your stomach and liver and tone the general system. First dose corrects the general system. First dose corrects the general system. First dose corrects the general system. Get a bottle today. 25c. all drug stores.

FRETFUL BABIES NEED A LAXATIVE

When your baby is cross and fretful the chances are it is constipated and that a mild laxative is all that is necessary to make it comfortable and happy. Inactive bowels are the cause of so much discomfort to children as to older people, and unless the condition is promptly relieved it is very apt to develop serious illness.

For children there is nothing that will act more easily than the combination of simple laxative herbs with pepsin that is sold in drug stores under the name of Dr. Caldwell's Syrup Pepsin. It does not grip and is free from opiate or narcotic drugs, is pleasant to the taste and positive effective; children like it and take it readily.

If you have never tried this simple, inexpensive remedy, get a bottle of Dr. Caldwell's Syrup Pepsin from your druggist and have it in the house to use the next time any of the children seem out of sorts. A trial bottle can be obtained, free of charge, by writing to Dr. W. B. Caldwell, 456 Washington St., Monticello, Illinois.

BILIOUS?

If you have bad taste in mouth, foul breath, furred tongue, dull headache, drowsiness, disturbed sleep, mental depression, yellowish skin—then you are bilious.

SCHENCK'S MANDRAKE PILLS

quickly relieve this disorder, which is the result of liver derangement and severe digestive disturbance.

Purely vegetable. Plain or Sugar Coated.
80 YEARS' CONTINUOUS SALE
PROVES THEIR MERIT.

KEEP LOOKING YOUNG

It's Easy—If You Know Dr. Edwards' Olive Tablets

The secret of keeping young is to feed young—to do this you must watch your liver and bowels—there's no need of having a sallow complexion, dark rings under your eyes, pimples—a bilious look in your face—dull eyes with no sparkle. Your doctor will tell you ninety per cent of all sickness comes from inactive bowels and liver.

Dr. Edwards, a well-known physician in Ohio, perfected a vegetable compound mixed with olive oil to act on the liver and bowels, which he gave to his patients for years.

Dr. Edwards' Olive Tablets, the substitute for calomel, are gentle in their action yet always effective. They bring about that ennobling of spirit that natural buoyancy which should be enjoyed by everyone by toning up the liver and clearing the system of impurities.

You will know Dr. Edwards' Olive Tablets by their olive color. 10c and 25c per box. All druggists.

AMUSEMENTS

AUDITORIUM.

The Narrow Trail. Today Wm. S. Hart, who has drawn capacity crowds to the Auditorium for the past two days in his latest Paramount feature "The Narrow Trail" will be seen for the last time in this remarkable production. Mr. Hart appears to exceptional advantage, and his characterization of the chief role, that of a handi-doubtless has proved very gratifying to the thousands that have seen him here in Newark in these two days. The fight between Hart and Thomas H. Ince is seen, for it is really wonderful and with the wonderful horse "Fritz" in the cast, none should miss it today. The fight between Hart and members of his company in one scene is one of the greatest rough-and-tumble scuffles ever staged. Sylvia Baile, the talented leading lady does good work, in fact the entire cast is good. To those who love out of door life, this "The Narrow Trail" will appeal for it is a typical Hart picture of wild out-of-door life, filled with wondrous pictures of the great west, and shrouding with tense incidents. The race scene alone will thrill you. If nothing else, especially wherein "Big Bill" saves his life by winning the race and making a flying leap from the judge's stand to his wonderful horse Fritz, and picking Miss Balmer up on a flying leap.

"Poppy." Norma Talmadge in the Seiznick picture "Poppy" comes to the Auditorium Friday and Saturday. The story by Cynthia Stockley, and directed by Edward Jose, is a powerful one, tells of a little orphan who was badly treated in a South African home, she runs away and is adopted by a man who afterwards marries her, but later she falls in love with a hero who is wandering in the African woods. The scenes of the drama being laid in Africa, London, etc. Frederick Farr, Eugene O'Brien, Jack Meredith, and others are seen in the cast. Miss Talmadge is always good and the play should draw capacity crowds. It is in eight parts.

A Rich Man's Plaything. Valaska Suratt, star of Wm. Fox's "A Rich Man's Plaything" that is seen at the Auditorium Sunday, thinks that there will be one good result from the war. It will show American women that they can depend on native talent for their costumes. In "A Rich Man's

GRAND. Dorothy Dalton's new starring vehicle "The Flame of the Yukon" a Triangle play by Monte M. Katterjohn, produced under the supervision of Thomas H. Ince, will be shown at the Grand theater Thursday and Friday. It is during the period of '98, when the gold mad crowds pack the little town of Hope City, Alaska. Dorothy Dalton appears as the "Flame," a harpy of the dance hall. Many thrilling episodes are enacted in the hall, where gamblers, miners and all types of men meet to try their luck with the roulette wheel. In one exciting scene "the flame" succeeds in breaking the bank and getting the money that her sweetheart has lost in a crooked game. An exact reproduction of the streets of Nome in the days of the gold rush is seen. Here a realistic fight takes place between Kenneth Harlan, as The Stranger, and Melbourne McDowell, as Black Jack Hovey. A company of nearly 300 people, including thirty Eskimos and their dog teams, enact their parts in this scene. Others in the cast are

Lee and Grant in "The Birth of a Nation," Auditorium, November 22

Plaything" Miss Suratt outshines all former wearers of elaborate costumes.

Auditorium Notes. Mail orders from out of town are starting to come in already for the "Birth of a Nation." Mgr. Fenberg received a money order from Thornville calling for a block of seats for the first matinee on next Thursday. Mail orders with admittance enclosed will be taken care of in order received. The seat sale for box office patrons goes on next Tuesday morning.

Affairs theatrically throughout the United States are not in the best of conditions, therefore the Managers Protective Association at a special meeting held the other day, considered the reducing of salaries of actors and actresses 50 per cent. It was stated that business has been falling off increasingly and that one theater, which usually would be good for an average of \$7000 to \$8000 a week during an ordinary season, took in \$1500 last week.

Doug Fairbanks, noted Arctcraft star, sold \$1,000,000 worth of Liberty bonds during the last campaign. Fairbanks comes to the Auditorium soon in "The Man From Painted Post."

In "The Retreat of the Germans at the Battle of Arras" many great scenes are shown—mention of the top—the tanks in gory action—the big guns spitting death and numerous other frightful scenes are shown. This comes to the Auditorium soon.

Julian Ellinge has made another great hit—this time it's in "The Clever Mrs. Carr." The picture, made by Lasky, story by Hector Turnbull and Gardner Hunting is said to afford this star the best opportunity of his entire career. It will be seen at the Auditorium soon.

"The Passing of the Third Floor Back" with Forbes Robertson is soon to be seen in pictures. Herbert Brenon is the producer and director.

Marguerite Clark, Paramount star, is to offer a Christmas photoplay "The Seven Swans," a gorgeous fairy tale. It will be shown at the Auditorium.

Paul Bowser is holding forth at the Auditorium tomorrow with his wrestling bout, therefore there is no picture at the Auditorium but Friday and Saturday.

Clever Norma Talmadge is seen in the great eight reel Seiznick production "Poppy."

The Hearst-Pathe News shown Saturday in connection with "Poppy" is said to be full of right up-to-the-minute stuff. The war section being doubly interesting.

Lillian Gish, who appears in one of the leading roles of "The Birth of a Nation," was born in Massillon, Ohio. This feature played that town Monday, Tuesday and Wednesday of this week and hundreds were turned away nightly.

In the cast with Evelyn Nesbit, who is seen at the Auditorium soon, is seen Charles Wellesley, Mary Hall, William Clark, Joyce Fair, Edward Fox, and sell Thaw, Marie Reichardt. The play, "Redemption," was directed by Julius Stieger.

Wm. S. Hart in "The Cold Deck" by

MAE MARSH

It is a well-known fact that lovers of photo plays have their favorites among the actors in the cast and rave over their cleverness and personal charm as if they were before them on the legitimate stage in actual flesh and blood. Mae Marsh, who plays Flora Cameron the younger daughter in the Southern household in "The Birth of a Nation" at the Auditorium theater, by her successful appearance in many photo plays during her three years' career, has attracted by her elf like charm and naive personality, many admirers who greet with pleasure her appearance on the screen. Miss Marsh has many bits of fine acting in the picture. Among the most de-

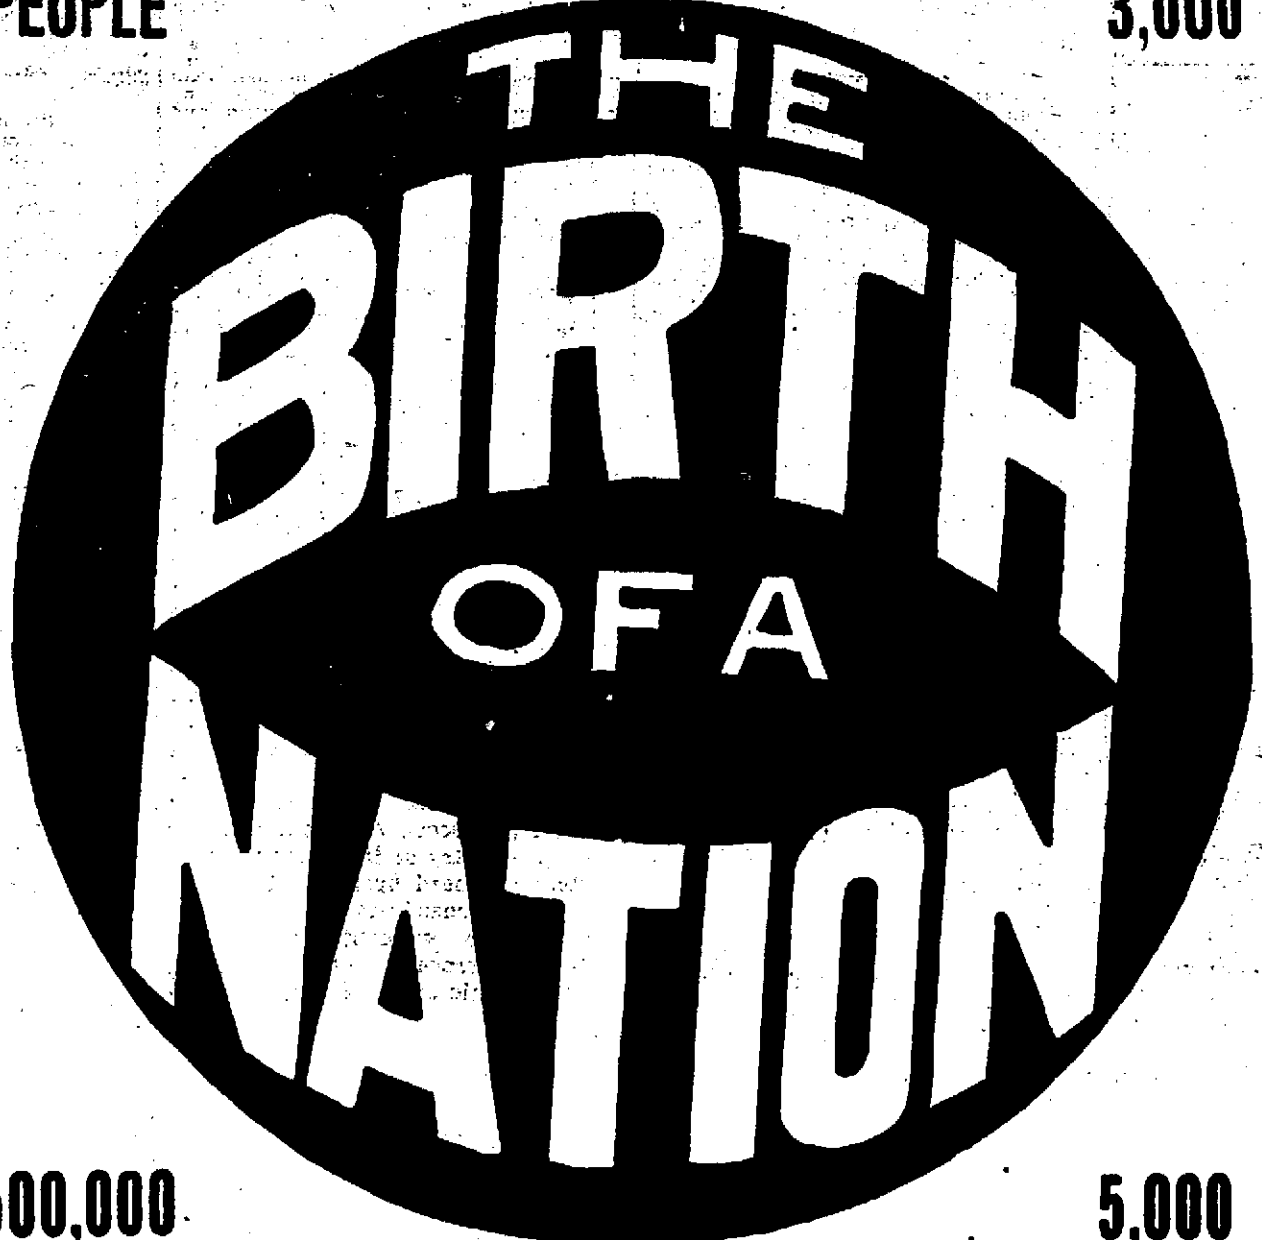

lightful are the welcoming of the brother back from the Civil War; the making of "southern-ermine" with raw cotton and chimney black; the scene in the cellar with Miriam Cooper; the garden making that follows the return from the war; the southern banquet; and the pretty scene where she rains kisses on her brother Ben's mouth to console him for temporary loss of his sweetheart Elsie. There is always a touch of comedy or of pathos where Miss Marsh appears. Her personality lends itself to fine temperamental treatment of any part she plays. Her expressive, ever changing, mood-adapting face, is one of the most valuable in all the list of film favorites. She was discovered by David Griffith, the producer of many film suc-

DORSEY'S FIRST FLIGHT MADE IN GALE; READY FOR BATTLE FLYING NEXT SPRING

In a letter received by his grandfather at Granville, George Dorsey, a Licking county boy, who took his preparatory course at Doane academy and his collegiate course at the University of Chicago, tells of his first airplane flight at an English aviation school where American air men are being taught war flying. Dorsey is one of the youngest men in the air corps. He was in a "ground" school at Urbana, Ill., for some time before sailing for England. Again he spent several weeks on the theoretical side of the flying game before he went into the air. His letter follows:

Crown Hotel,
Stamford, Eng., Oct. 26.
My Dear Grandfather,
Three months since I sailed from New York, and in all that time just one little letter from father, which beside several long letters from mother and sister, is all the mail I have received since I have been abroad. Living in a warring country in the army and preparing to fight is hard, dull work and unless one hears from the people he loves, he feels absolutely forsaken. I think the slowness of our government in forwarding mail is the main cause of the trouble, and I hope that before long I shall have a great stack of new letters.

As father undoubtedly has written you, our little detachment of fifty has waited a very long time to learn flying. Although we had completed a two months ground school work at Champaign, Ill., we were asked to undergo six weeks more work at Oxford studying machine guns, bombing, photography, artillery observation, general flying, engines, rigging and the many countless technical subjects necessary for a war flyer.

None of us minded our long sojourn at Oxford. We had very comfortable quarters at Queens College, and our life was very similar to that of the peace-time university student. We took long walks through the college grounds, deer parks, and along the banks of the Cheewell and Thames. We boated and played rugger and racker and had an occasional horseback ride into the country.

Several days ago we were posted at the Royal Flying Corps Aerodrome here, and it is a lovely place to be. Stamford is just at the edge of the hilly country, not very far from the Fen district and the Wash. The town was begun about 50 A. D.; soon attained its growth and has remained comfortably dwarfed and unchanged ever since. As the country hereabouts is prolific in sheep, cattle and grain, the town is wealthy. Every little home is built to last generations, and fine old Gothic churches are so numerous. I don't see how any of them can keep up a very large attendance. Yesterday I took a long walk in the country. On the hillsides, the hard-wood groves were in rich autumnal shades. The meadow lands in the valleys are still a bright green, and dotted thickly with sheep. The country is quiet and peaceful and very much like the old Licking county hills, except the roads are more durably built, and the homes, all of stone, are older and more picturesque. The beauty of the English rural residence is that every stone, every decoration, was originally designed for durability alone. It is what Ruskin called honest, sincere design. There isn't a sham in it. The back walls are of as fine stone as the facade. The old inn I'm sitting in tonight used to be the resort of English huntsmen, and riders, and "blasts." The walls of the great living room are covered with old lithographs of dukes and ears, and sirs in riding costume as riding in the chase.

Today I had my first flight! It was very wintry, gusty morning, and a wind of nearly thirty miles an hour blew from the north; but the sun shone and my instructor, a Scotch lieutenant, decided that I should be initiated on a gusty day. After bundling up in fur-lined leather clothing and donning leather helmet, and enormous goggles, we climbed into the front of a biplane. We tacked out to the edge of the field and started along the ground into the wind. We left the ground, going fifty miles an hour, and before I realized it, we were over the hangers and away, leaving mother earth farther and farther behind. Soon the country lay like a beautifully colored map beneath us. Fields of gray and green and brown in orderly rectangles—dots of brown hay stacks, snake-like roads, glistening reservoirs and black banks of woodland. The wind roared round about us, and every minute or so we would strike what my instructor calls, a "down-bump"—a rarified air area; and down our little boat would drop like a piece of driftwood from the top of a wave—then she would head upward again and climb higher and higher. When we turned the wings on our side would point to the sky, and the other wings would lead straight to the earth. I felt very secure in my little hole in the fuselage, although a bit thrilled and exuberant. At last the instructor, Lieut. Piersen, muffled down the engine, turned our nose downward and we dropped like a bullet from the sky, with ever increasing speed, making a "cork-screw dive." For a long time the earth seemed to rush to meet us; the situation changed, and we seemed to be fall-

ing, but the wind holds you as securely in your seat as if you were in a Morris chair in the living room. We could make out people by the hangers; then, when we seemed about to crash, up went our nose and we hit earth so gracefully, I could scarcely feel the bump. It was glorious! I shall surely love flying. If we have good weather, I should be flying alone within a month or six weeks; but there is so much to learn, it will be spring before I am ready for the front.

Asquith thinks peace will come by Christmas. Sir Douglas Haig is non-committal; but the English and French are certain the Hun has had, about enough.

Being an American, I am convinced enough to think that it won't be until the German finds Americans in the field that he will give up the fight. Some time before another fall comes round, I shall surely see Granville again, and be with you all. How I long for it!

Please send me from time to time clippings from papers and periodicals and write to me often. Much love and fondest wishes.

Your grandson, **GEORGE.**

STORES IN MINING TOWNS BOOST PRICE WHEN WAGES GO UP

(Associated Press Telegram)
Columbus, Nov. 14.—Following an investigation of complaints that food prices were advanced simultaneously with miners' wage increases and exercising for the first time authority lodged in his office by the federal law, Fred C. Croton, state food administrator, today ordered immediate reductions in the prices of staple food stuffs sold in two mining towns in Athens county.

In a conference in Columbus with representatives of both stores, which are operated by mining companies, administrator Croton made plain that there are three ways that he will undertake to enforce food administration regulations to prevent profiteering:

First—By prosecution through the federal department of justice.
Second—By ordering wholesalers to cut off the supply of offending retailers, as authorized by the food law.
Third—By prosecution under state laws. The Ohio statutes give the food administrator ample power to curb unreasonable profits, even without recourse to food control machinery.

The offending companies, which control more than 19 stores in Athens and surrounding counties, promised to comply with Croton's orders. One of the companies was ordered to make material reductions on eggs, sugar, flour, cheese, beans, butter, pork chops and bulk crackers. The other company was ordered to reduce on flour, corn meal, eggs, butter, potatoes and meats.

The probe showed that both companies had made unusually large increases in their selling prices. Croton asked the companies to furnish him with cost prices and selling prices of principal food stuffs during the first week in November, 1915 and 1916. He indicated that he would use these figures as the basis for final settlement of prices by company stores. The food control law gives Croton or his agents power to probe books and invoices of any food distributor or retailer at any time.

All members who possibly can, please be present at a regular meeting Thursday evening, November 15, as business of the uttermost importance will be transacted. 11-13d3t

Bare Eyes, Granulated Eyelids, Eye Inflammation by exposure to Sun, Dust and Wind quickly relieved by **Barnes' Eye Remedy**. No stinging, just Eye Comfort. At your Druggist's or by mail, 50c per Bottle. For Book of the Eye Free, ask **Worthing Eye Remedy Co., Chicago.**

ONE OF CAPITAL'S HARDEST WORKERS

Bernard N. Baruch.

The many various duties of **Barnard N. Baruch**, member of the advisory board of the Council of National Defense entail more responsibility than almost any other of the war-work volunteers. Almost every day the president broadens his work, and increases his duties.

You Can Wipe Off Superfluous Hairs

"See Them Creep Up and Vanish—Leave Skin Gloriously Clean," Says the Screen Favorite, **Valleka Suratt.**

BY **VALEKA SURATT**

I WANT to tell you a new way of getting rid of superfluous hairs. With your fingers or a cloth you can rub off with one stroke every superfluous hair as easily as you can wipe off a little spot of dirt. The first time you try it you will be surprised at the results. The hairs will come loose, and you will see the difference in the skin. It's simply wonderful. Try it. It does not harm the skin in any way whatever and leaves no mark. It is ideal. For one dollar you can get from any drug store enough sulfo solution to last for quite a while.

Every woman should have this sulfo solution on her dressing table, because it is simple to use, is absolutely safe and never fails. It is certainly remarkable what a difference is produced on the average face by the removal of even the light "down" which many people do not think of removing at all. Just try it yourself and you will see I am entirely right.

MISS "A. B."—I've been bald spots all over my face for a long time. I want you to try a powder made after my own formula of extraordinary fineness, softer than down, **Valleka Suratt Face Powder**, now sold by all druggists and chemists, and you'll have the best hair grower ever known. Get an ounce of betaniquinol from your druggist for fifty cents and mix with a pint of bay rum (or with a half pint each of water and alcohol). Use this frequently, and you will have a head of hair to be proud of.

ANNOUNCED—One of the ingredients of eggs is known to have a delightful result on hair. Its use in a shampoo cannot be equalled. You can get even better results for a thorough head-wash by dissolving a teaspoonful of eggol in a half cup of water. For twenty-five cents enough eggol can be secured to last for a dozen or more shampoos.

MRS. F. A. M.—Blackheads can be removed in a few minutes. Hard to believe, perhaps, but it is true. All you have to do is to rub the black-head region with powdered **neroxin** which has been sprinkled on a wet cloth. The powder will absorb the oil, and the pores will be opened. Steaming and pinching will do no good. **Neroxin** is sold at drug stores.

HAZEL X.—The deep wrinkles on both cheeks can be easily removed as wrinkles on any other part of the face. Unfortunately, few people realize how easily and cheaply they can be removed. Spend money for all kinds of creams and treatments, when a simple mixture, made at home, of two ounces of water and two tablespoonfuls of glycerine in half a pint of water will do the trick. It has a wonderful rejuvenating effect on the skin, and in a few years younger in a short time. Get the good. **Neroxin** is sold at drug stores.

MISS F. A. M.—Blackheads can be removed in a few minutes. Hard to believe, perhaps, but it is true. Steaming and pinching will do no good. **Neroxin** is sold at drug stores.

HAZEL X.—The deep wrinkles on both cheeks can be easily removed as wrinkles on any other part of the face. Unfortunately, few people realize how easily and cheaply they can be removed. Spend money for all kinds of creams and treatments, when a simple mixture, made at home, of two ounces of water and two tablespoonfuls of glycerine in half a pint of water will do the trick. It has a wonderful rejuvenating effect on the skin, and in a few years younger in a short time. Get the good. **Neroxin** is sold at drug stores.

MISS F. A. M.—Blackheads can be removed in a few minutes. Hard to believe, perhaps, but it is true. All you have to do is to rub the black-head region with powdered **neroxin** which has been sprinkled on a wet cloth. The powder will absorb the oil, and the pores will be opened. Steaming and pinching will do no good. **Neroxin** is sold at drug stores.

UNADMIRED—From one Sunday to the next I have seen a face yellow and full of muddy spots become almost clear as a lily, and the only thing that did it was a mixture, made at home, of one ounce of mineral water and one ounce of glycerine in a pint of water. This formula is my own, and can assure you of quick results. The results are astounding in most cases. The skin can be restored from your druggist. It will make over a pint of this quick-working complexion restorer.

MISS F. A. M.—Blackheads can be removed in a few minutes. Hard to believe, perhaps, but it is true. All you have to do is to rub the black-head region with powdered **neroxin** which has been sprinkled on a wet cloth. The powder will absorb the oil, and the pores will be opened. Today's Police Court.

A transient picked up by Police Chief James Sheridan was before

IN FIVE MINUTES NO SICK STOMACH INDIGESTION, GAS

"Pape's Diapiesin" is the Quick-est and Surest Stomach Relief.

You don't know what upset your stomach—which portion of the food did the damage—do you? Well don't bother. If your stomach is in a revolt; if sick, gassy and upset, and what you just ate has fermented and turned sour; head dizzy and aches; belch gases and acids and eructate undigested food; breath foul, tongue coated—just take a little Pape's Diapiesin to neutralize acidity and in five minutes you wonder what became of the indigestion and distress.

Millions of men and women today know that it is needless to have dyspepsia. A little Diapiesin occasionally keeps the stomach sweetened, and they eat their favorite foods without fear.

If your stomach doesn't take care of your liberal limit without rebellion; if your food is a damage instead of a help, remember the quickest, surest, most harmless antacid is Pape's Diapiesin which costs only fifty cents for a large case at drug stores. It's truly wonderful—it stops food souring and sets things straight, so gently and easily that it is really astonishing. Your stomach will digest your meals if you keep acids neutralized.

Advertisement.

Mayor R. C. Bigbee today for examination. The young man was endeavoring to sell a box of cigars, which it is believed was stolen. He had a partner with him old enough to be his father. Their case was continued for further investigation. One plain drunk was fined \$5 and the costs.

Ready for Tomorrow.

If you see your neighbor coming home with a package under his arm and wearing a bright and happy look, it is a safe prediction that he owns a gun or has succeeded in borrowing one, and is all ready for the fray, for the hunting season for rabbits opens tomorrow. Each hunter may kill ten but no more.

Still Receiving

Gifts for Dinner

to Soldier Boys

President George Graesser of the soldiers' Christmas dinner fund, and the secretary-treasurer, C. E. McDaniel, report that funds are beginning to come in for the purchase of good things for the soldier boys of Newark and Licking county, who have been called to the colors. It will be necessary to send to several camps as a number of the boys have been sent to Little Rock, Ark., while others are in Montgomery, Ala., and Chillicothe. It will be impossible to reach the boys in France at this time but they will receive something a little later. Mr. McDaniel will take any donation and give credit for it. The team captains in charge of the various solicitors are meeting with the greatest of success. Mr. McDaniel and the Miller brothers served a luncheon to the workers Monday evening.

Talleyrand.

Talleyrand's conservatism was summed up by a witty compatriot, Paul de Courrier, who on one occasion declared that if Talleyrand had been present at the creation he would have exclaimed: "Good gracious! Chaos will be destroyed!"

When It's True.

"There's no sentiment in business," he said coldly.

"Not when you want to give somebody a little the worst of it," the other fellow replied.—Detroit Free Press.

NERVOUSNESS AND BLUES

Symptoms of More Serious Sickness.

Washington Park, Ill.—"I am the mother of four children and have suffered with female trouble, backache, nervous spells and the blues. My children's loud talking and romping would make me so nervous I could just tear everything to pieces and I would ache all over and feel so sick that I would not want anyone to talk to me at times. Lydia E. Pinkham's Vegetable Compound and Liver Pills restored me to health and I want to thank you for the good they have done me. I have had quite a bit of trouble and worry but it does not affect my youthful looks. My friends say 'Why do you look so young and well?' I owe it all to the Lydia E. Pinkham medicine."

—Mrs. ROSE STORRE, Sage Avenue, Washington Park, Illinois.

If you have any symptom about which you would like to know write to the Lydia E. Pinkham Medicine Co., Lynn, Mass., for helpful advice given free of charge.

Boys at Camp Sherman In Position to Visit With Home Folks, at Y. M. C. A. Buildings.

Camp Sherman, Chillicothe—Have you visited the boy since he went to camp? Come and see him! He will welcome you and so will the army Y. M. C. A. Come down and look him over—when he's in the barracks, on the parade grounds, at play or just loafing about the "Y" building.

"We would like every parent and

think of it. We want the people of Ohio to know and realize what service the Y. M. C. A. is giving."

Various communities of the state are sending almost daily now, parties of their representative citizens to make personal visits with the boys—to talk with them in a heart-to-heart way of their work here. The Y. M. C. A. is behind visitors of this kind be-

HOME FOLKS ARE ALWAYS WELCOME.

every friend of every man in Camp Sherman to visit us," said D. C. Weist, general secretary in charge of the Y. M. C. A. work here. "We would like them to get a line on the kind of work we're doing here and hear from their boys what they really

DEAD STORAGE BATTERIES CAN BE RESTORED TO LIFE

By the use of BATTERYVIM, which breaks up the sulphation on the plates, which is bound to take place after a battery has been in use for a time. When the plates become sulphated and hard they will not adhere to a charge. That is the reason they are discarded and a new one takes their place. However, we are in a position to renew that old battery and give it new life and save the motorist more than half the cost of a new one. Do not delay, but put that battery in condition to withstand the winter season. We will take care of your battery during the cold months at a very nominal sum. Free inspection of your battery at all times.

ARMORED CARS HELD ENEMY WHILE TROOPS RETREATED.

(Associated Press Telegram.)

Italian Headquarters in Northern Italy, Tuesday, Nov. 13.—A section of Italian armored motor cars, each of which mounts three quick-firers in the turrets, is just back from one of the most thrilling experiences of the war. The duty to which these cars were assigned to hold the bridgeheads from the Tagliamento to the Piave rivers until the cavalry rear guards had passed across and then to burn the bridges behind them. The commander and a number of his men were seen by the correspondent at their camp where they recounted their experiences as though they were every day occurrences.

Huge cars resembling tanks stood about the camp, showing the scars received in the recent ordeal. They have heavily armored bodies. There is a steel door and for observation purposes two small openings are provided. The two turrets above revolve, the upper one having one quick-firer, the lower two.

The orders were to "hold to the death" the bridges at Saviola, Polcenigo, Santa Lucia and San Giovanni until the Bersaglieri and cavalry have crossed. That they succeeded is shown by the fact that all the rear guards made their way over the bridges, and that all the bridges were burned and that the section returned leaving only one damaged machine with the enemy, although 18 of the 40 cars were in such crippled condition that it was necessary to abandon them after the bridges were burned.

The machines were divided, ten being stationed at each of the four bridgeheads. After seeing their own rear guards safely across they awaited the approach of the enemy advance guards, even staying in some cases until the cars were surrounded by hostile patrols, which were then mowed down by the batteries of quick-firers.

At the San Giovanni bridge one car took its station during the night midway across the bridge. Early in the morning it was ordered to surrender to a German car which bore the imperial crest and carried a German captain and two lieutenants. Instead of surrendering two Italian

captains and four gunners suddenly opened the steel door and sprang out with carbines. The German captain and one lieutenant were killed. The other lieutenant and the German car were captured and brought back.

At the Saviola bridge the cars had orders to hold for three hours, but they held 32 hours. At Santa Lucia the commander ordered one of his machines to advance against an enemy patrol which was dangerously near. The car was rushed forward, sweeping the enemy from its double turrets but when this mission was accomplished and the car was turned back it was found that the bridge was on fire. The only way was to cross this burning bridge. The car was steered straight over the smoking planks creaked under its huge weight. It crossed safely and is one of the cars brought back.

The ammunition of another car was exhausted after it had fired 30,000 rounds. Each quick-firer has a capacity of 15,000 shots. The commander and his men are receiving congratulations for the effectiveness of their resistance in the face of the enemy and their complete success in bringing the rear guard across and burning the bridges behind them.

now that I am well I am going to do all I can for others afflicted as I was. I suffered for five years from chronic rheumatism of the joints I don't believe there was a joint in my body escaped. My hands, feet and knees were extremely painful. For three years before the disease got so bad, I could hardly drag myself up or down stairs. My hands were deformed and very weak; in fact, I had to use both hands to lift a tea pot.

"The disease continued to grow worse in spite of treatment until I was unable to walk, and was compelled to stay in bed. I was in bed for nine months, helpless as a child, unable to move. Every joint ached

gone through this torture knows how I suffered.

"Var-ne-sis was recommended to me by an insurance agent. I had little confidence that Var-ne-sis would help me after trying about everything suggested, but decided to give it a trial. Var-ne-sis helped my stomach the first week. In three months I could see I was improving, and gradually I was able to go about the house as well as ever. I do my own work, and to see me now one would never believe I suffered from this terrible disease, rheumatism.

"I cannot say enough for Var-ne-sis. I would be glad to answer all questions about my case, as I want to help others find relief."

W. A. Varney said: "Not only does Var-ne-sis take care of rheumatism, but, unlike other preparations, it helps the stomach from the first dose. Var-ne-sis does not contain salicylate of soda, iodides, potassium, capicum or pepper." My collection of wheel chairs, crutches, canes and letters on display at my Boston office, 140 Boylston St., is open to the public. The names and addresses are on each article and I court investigation of each case published.

I will pay the expense of three business men to investigate the evidence I produce, providing they will allow me to publish the results over their names. Can I do more?

You ought to read "The Rust of Human Hinges," just off the press. It's free. Just address W. A. Varney, Lynn, Mass.

Get Var-ne-sis now, today, at R. W. Smith, druggist and any reliable druggist, and know what good health means.—Advertisement.

Red Blood and Courage!

(Dr. W. C. Pierce.)

What drives the men right up to the trenches in this war is courage, and it's red blood that puts the heart in the men. Did any one ever see a puny, thin-blooded man ever rush into the light with any chance of winning out? With rich, pure blood you can face any hardship, reach any goal. But you are handicapped in the face of life without it. Every tissue, bone, muscle, should take from the blood certain materials and return to it certain others. When the poisons accumulate in the blood, perhaps the face breaks out in pimples, or boils appear on the neck, and we feel languid, tired, our vitality is at a low ebb, and we easily catch cold.

It is time to take an alterative extract and blood-purifier taken from Nature's forests. Such a one is made up of Golden Seal, Blood and Stone root, Oregon Grape and Queen's root—extracted with glycerine and made into sugar-coated tablets or liquid, and this has been sold by druggists for the past fifty years as Doctor Pierce's Golden Medical Discovery.

SUGAR RIDGE, Ohio.—"I wish, like thousands of others, to add my testimony in the praise of Dr. Pierce's medicine. In the spring of 1915 owing to exposure of a hard winter I found myself a wreck for a man of 30. My appetite was gone, blood was thin and watery and rheumatism had taken hold of me. I tried various remedies but they gave me very little relief. If any one bought two vials of the 'Pleasant Pellets' and two bottles of Dr. Pierce's Golden Medical Discovery and in one week my aches were gone, constipation ceased, and in a short time I was feeling like a new man. Since then I told many, many people of the value of Dr. Pierce's remedies and will continue to do so, as I know by experience they are all that they are advertised to be."—ALBERT A. BLAINE.

CLEVELAND, Ohio.—"From the time I was a small child I suffered with bilious sick-headaches. I would be so bad at times when I was attending school I would have to come home and go to bed. I took many different medicines but did not get any relief until I began taking Doctor Pierce's Pleasant Pellets. This medicine completely cured me and I have never had any return of the ailment. I can recommend 'Pleasant Pellets' to those who suffer as I did."—Mrs. E. J. MASON, 4615 Tillman Ave.

NOTICE TO GAS CONSUMERS

The City of Newark vs. The Newark Natural Gas and Fuel Company

We still have a number of checks on hand uncalled for. If you have not received your money please call at Room 801 Newark Trust Building at your earliest convenience as we are desirous of closing up this matter.

JAR OF TEAMS PASSING HOUSE MADE WOMAN CRY FROM PAIN OF RHEUMATISM

Unable to Walk Because of Pain—Gives Credit to Var-ne-sis for Recovery

Back to health after five years of suffering day and night from rheumatism of the joints is the experience of Mrs. L. Northrop of 43 Hildreth St., Lowell, Mass. Mrs. Northrop said: "It was a terrible experience, but

now that I am well I am going to do all I can for others afflicted as I was. I suffered for five years from chronic rheumatism of the joints I don't believe there was a joint in my body escaped. My hands, feet and knees were extremely painful. For three years before the disease got so bad, I could hardly drag myself up or down stairs. My hands were deformed and very weak; in fact, I had to use both hands to lift a tea pot.

"The disease continued to grow worse in spite of treatment until I was unable to walk, and was compelled to stay in bed. I was in bed for nine months, helpless as a child, unable to move. Every joint ached

gone through this torture knows how I suffered.

"Var-ne-sis was recommended to me by an insurance agent. I had little confidence that Var-ne-sis would help me after trying about everything suggested, but decided to give it a trial. Var-ne-sis helped my stomach the first week. In three months I could see I was improving, and gradually I was able to go about the house as well as ever. I do my own work, and to see me now one would never believe I suffered from this terrible disease, rheumatism.

"I cannot say enough for Var-ne-sis. I would be glad to answer all questions about my case, as I want to help others find relief."

W. A. Varney said: "Not only does Var-ne-sis take care of rheumatism, but, unlike other preparations, it helps the stomach from the first dose. Var-ne-sis does not contain salicylate of soda, iodides, potassium, capicum or pepper." My collection of wheel chairs, crutches, canes and letters on display at my Boston office, 140 Boylston St., is open to the public. The names and addresses are on each article and I court investigation of each case published.

I will pay the expense of three business men to investigate the evidence I produce, providing they will allow me to publish the results over their names. Can I do more?

You ought to read "The Rust of Human Hinges," just off the press. It's free. Just address W. A. Varney, Lynn, Mass.

Get Var-ne-sis now, today, at R. W. Smith, druggist and any reliable druggist, and know what good health means.—Advertisement.

DECEMBER DELINEATORS ARE HERE

KIDDIE-KAR

For Boys and Girls--Indoors and Out

It makes a hit with all the neighborhood kiddies, and as the name implies, is a "car" for the younger children, boys or girls. It is safe, even for the tiniest tot, no sharp corners, and so low the child is nearer the floor than when standing. It is propelled by the feet on the floor or ground, and is a great outdoor coaster, as well as a practical indoor car.

THE KIDDIE-KAR keeps the kiddies out of mischief and develops their strength by harmless and joyous exercise. It's absolutely safe, almost indestructible and handsomely finished in light orange color and red wheels.

Shown in numerous sizes for children from 1 to 8 years. Prices.....\$1.00 to \$3.00 each

SHOO-FLIES 75c TO \$3.00 EACH

Another practical toy for indoor or outdoor play. The little girls will like them, they can ride their dolls in them.

NOW THAT THE INDOOR SEASON IS HERE

The children will be compelled to spend their playtime indoors. A few interesting games will keep them amused for hours at a time. In our toy department are splendid games as low as 10c and ranging up to \$1.75. Especially interesting to the boys will be such games as the naval war toy, hunter's games, humpy dumpy circus, etc., ranging from.....50c to \$1.75 each

HAPPY TIMES ARE AHEAD FOR YOUNGSTERS

Whose Christmas toys are selected from our toy department. Everything to delight wide awake children will be found here, and have you stopped to think it was time you were planning the Christmas toy list for the children? Our toy department will offer splendid suggestions.

The W. H. Mazey Company

DAYTON MAN CHOSEN C. OF C. SECRETARY;
HAS BEEN VERY SUCCESSFUL IN WORK THERE

E. W. Mentel, assistant secretary of the Greater Dayton Association of Dayton, has been elected by the board of directors of the Newark Chamber of Commerce to succeed Manager George H. Mosser, who resigned to become state manager of the Commercial Protective Association of Ohio. Mr. Mentel will assume his duties December 1, and has closed a contract for two years of service.

Following Mr. Mosser's resignation, the board of directors received application for the post from a number of successful secretaries in Ohio and other states. Mr. Mentel was invited to Newark for a conference and because of his splendid record under John M. Guild, managing secretary of the Greater Dayton Association—one of the big commercial executives of the country—he was chosen for the post. Mr. Mentel was born in Dayton in 1887, educated in the Dayton public schools, and was graduated from the Steele High School in 1905. That summer he entered the employ of the Platt Iron Works, machinery manufacturers of Dayton, serving in various capacities until December, 1913. The last 15 months with that company he was assistant sales manager in the New York City office.

In December, 1913, he was appointed assistant secretary of the Greater Dayton Association, which was re-organized from the old chamber of commerce. November, 1916, he was promoted to first assistant secretary. During that period he organized the Retail Merchants' Bureau of Dayton, a department of the association, and for three years acted as its secretary. Through the bureau the merchants of Dayton have been drawn into close contact with each other through co-operative spring and fall openings, style shows and other trade events. He also organized the Dayton Retail

Trade Promotion Bureau for promotion of trade in the surrounding territory, advertising Wednesday as "suburban shopping day" in Dayton. For two years Mr. Mentel was in charge of the convention bureau and inaugurated a new plan for raising convention funds. He also has been in charge of the industrial department and was responsible for the collection of data preliminary to the making of a complete industrial survey by the Baltimore & Ohio Railroad.

Mr. Mentel was secretary of the Dayton Salesmanship Club, with 350 members, and secretary of the good roads committee, assisting in organizing the Dayton Automobile Club. He assisted in securing the Dixie highway for Dayton and in organizing the Ohio division of the Pike's Peak Ocean-to-Ocean highway, having been secretary-treasurer of that organization for the past two years.

The work of the Greater Dayton Association from its beginning has been upon very broad lines, including not only commercial but civic work. In fact, a larger proportion of the work being along civic lines on the grounds that a city should be made right, civilly, and if this is done, new industries will locate of their own accord with, of course, whatever assistance the chamber of commerce can give. Mr. Mentel's experience has been broad along the lines of health and sanitation; fraudulent advertising; public safety; fire prevention; traffic; child welfare; good roads; parks and playgrounds; recreation; public utilities; markets and pure foods.

The new Newark manager is interesting personally, a member of the Y. M. C. A. Association club, Dayton Advertising club, Salesmanship club, and First Lutheran church of Dayton. He is unmarried.

Mr. Mosser, the retiring manager, for the present will maintain the

headquarters of his new business in Newark, with an office in the Newark Trust building. He will direct his salesmen from this city, and while the greater part of his time will be spent on the road he will be in a position to be of assistance to Mr. Mentel in acquainting him with the local work.

TUMULTY NAILS LIE
PASSED BY ENEMY;
IS NOT IN PRISON

Washington, Nov. 14.—Newspaper offices, the government departments and even the White House itself have been bombarded recently by inquiries from many sections of the country concerning preposterous stories about Secretary Tumulty. Usually the questioner wants to know whether it is true that the president's secretary has been sent to Ft. Leavenworth as a spy.

Now Mr. Tumulty is hearing from his friends on the subject and yesterday he authorized this statement at the White House:

"For several days friends have written, telegraphed and telephoned me from all parts of the country stating that rumors are being assiduously spread alleging that I have been imprisoned at Fort Leavenworth. All sorts of fanciful tales are being passed from mouth to mouth by innocent persons who are the victims of a systematic and insidious propaganda to weaken confidence in officials of the federal government. Officials of the department of justice are investigating the origin of this conspiracy to determine who have been guilty of actually starting this falsehood."

No one has been able to account for the circulation of these reports. Most of them come out of the middle West and apparently they have been spread from one end of the country to the other.

THIRD LUCKENBACH
STEAMER IS SUNK
WITHIN A MONTH

An Atlantic Port, Nov. 14.—News of the destruction by a German submarine of the American steamer D. N. Luckenbach on Oct. 27 was brought here today by 23 survivors of the crew. Five of the crew were killed.

The vessel was sunk in the Bay of Biscay, about 100 miles from the French coast, by an unseen torpedo, whose explosion killed the five men the survivors said. They were picked up by a Danish ship two days after the sinking.

Two other Luckenbach steamers were sunk last month, the Lewis Luckenbach early in the month and the J. L. Luckenbach Oct. 19.

The five men killed on the D. N. Luckenbach were members of the engine room force. The survivors escaped in two small boats.

LOSES BOTH ARMS SEEKS
DEATH UNDER CAR WHEELS

Columbus, Nov. 14.—With both arms cut off above the elbow by a train yesterday, a C. A. & C. brakeman worked his way out from under the wheels and then started to crawl back so that he "might end it all," as he later explained.

An aged colored woman divined his purpose and jerked him away from the rails just in time.

He was Millard Brake, 35 years old, 747 Parkwood avenue. The name of the woman was not learned.

The ammunition factories have more serious things to think about than the fellow who shoots off his mouth.

NEW CLOTHING CO.
STARTS WORK IN
SWISHER BUILDING

The Hercules Clothing company, the third industrial plant landed for Newark by the Chamber of Commerce, started operations today in the Knights of Columbus building on West Main street, formerly the Swisher building. It will manufacture pants and has war orders.

M. Risler, the president, stated that sixteen machines have been installed and four skilled operatives, headed by Miss Ollie Ray, forewoman, have been brought over from the main plant in Zanesville to break in the new force. Applications filed with the employment department of the Chamber of Commerce have been turned over to the company and the women and girls are being placed at work. More machines will be placed each day and there is need for fifty operatives at once.

President Risler says new operatives will be started at six dollars a week, and given machines and piece work as rapidly as they qualify. The company occupies the second floor of the Knights of Columbus building, with 7,500 feet of floor space, which has been remodeled for factory purposes. A stairway has been constructed to give an entrance from West Main street.

The Hercules Clothing company has been in operation in Zanesville for the past fifteen years and its plant there gives employment to over 200 persons.

DENISON GRAD AND
FOUR BROTHERS IN
UNCLE SAM'S SERVICE

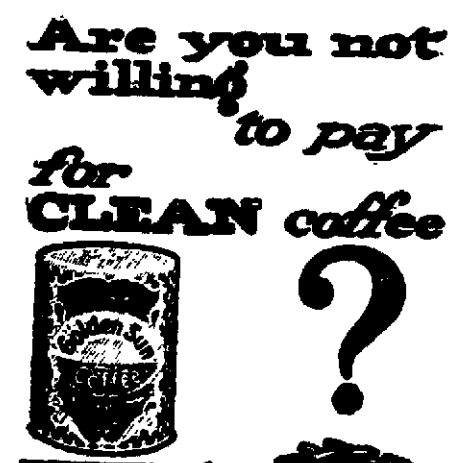

Bowling Green, O., Nov. 14.—Attorney J. E. Ladd of this city now has five sons serving Uncle Sam. Dale Ladd received his commission as first lieutenant in the quartermaster's department of the national army and will be sent to a truck service station. The four other sons, serving their country, are Captain Jesse Ladd, Lieutenant Donald, Sergeant Raymond and Corporal Paul Ladd. Donald Ladd formerly was a football star at Denison university.

WHAT Y. M. C. A. IS
DOING FOR SAMMIES

What the Y. M. C. A. is doing for men in the service is shown by a review of the contents of a ship sent from Brooklyn to a port in France a few days ago:

200,000 letterheads
100,000 envelopes
10,000 pounds of sugar
5 tons of milk chocolate
600 dozen packages of biscuits
20 barrels of flour
20,000 packages of chewing gum
500 folding chairs
10 folding organs
100 moving picture machines
100 talking machines
5,000 records
500,000 photograph needles
4,000 quarts of ink
504,000 pens
100,800 pen holders
600 baseball gloves
400 baseball bats
300 basket balls
5,000 baseballs
7,000 sets of checkers
20,000 Testaments
10,000 hymn books
2,000 blankets
500 camp cots
100 typewriters
2,200 magazine holders

Of course we should all learn to say no, but many a girl has remained an old maid that way.

Are you not willing to pay for CLEAN coffee?

THE peddler may not always give it to you. But the clean, air-tight Golden Sun package does every time.

Golden Sun Coffee

is guarded from dirt soon as it comes into our sunlit factories. Even the dust is removed by a special process which also removes the chaff, the part that makes coffee cloudy and bitter. The flavor is simply delicious. Your grocer sells it. Try a pound today.

PREPAREDNESS
BIG ISSUE
PEOPLE FACE

Security and Happiness Come by Re-pairing All Weaknesses—Meet All Eventualities.

Being prepared is the one big thought of the people of the United States today. Never before have our statesmen bared so freely to the American people the weaknesses of our great republic.

There is a general determination to remedy the weaknesses in our defenses so that we may become a strong nation. A nation is only as strong as its weakest part.

So also is the human body. Preparedness must be the constant slogan of every man, that he may remedy every weak point in his body—that his striking power may not be nullified by some weak point in his human armor.

Ner-Vee is the right medicine for those run down, tired out nerves. Ner-Vee, the king of Nerve Medicines, is a great reconstructive preparation, purely vegetable. Its success is built upon results.

The effectiveness of the remedy is almost instantaneous as it seems to quickly reach the very seat of stomach, liver and kidney trouble, perfects the digestion, enriches the blood, eradicates Rheumatism and uric acid, catarrhal affections of the mucous membranes and is at once a powerful combatant of disease.

Ner-Vee is being sold and introduced at the Crayton Pharmacy, No. 3 South Park Place every day and night by Mr. Ayres or his assistants.—Advertisement.

ALL NEW OFFICERS WILL
GET ACTIVE SERVICE

Washington, Nov. 14.—All men who qualify in the officers' training camps will be given commissions and practically all of them will be assigned immediately to active service with troops or at service schools. Secretary Baker announced yesterday that restudy of the situation had disclosed that it would be necessary to place any considerable number of the camp graduates on the inactive list.

The announced intention of the department to assign to active service only a small percentage of the men who will complete their course in the second series of camps this month, caused a flood of protests from friends and relatives of the men. The plan had been to commission many of the students as reserve officers and allow them to return to civilian status until needed.

Romance Has Vision

The young gentleman who wrote his name on an egg shipped from his father's farm together with the statement that he wanted a "nice little wife," notes the Bartow (Fla.) Courier-Informant, has received a blow in the answer from a woman who replied briefly and effectively, "You poor boob!"

"Has Romance Died?" is the caption put on the story by an editor who prints it. That question is easy to answer. Romance is deathless. But the woman who got the inscribed egg had sense enough to know that the type of romance indicated was a flimsy sort on which to build a life work.

Love may be blind, but the true romance has vision. And it requires a more substantial foundation than an eggshell.

May the sentimental youth find a sensible happiness around the corner. One doesn't need to wish romance for the iconoclastic young woman. She'll get her's all right.

REV. H. G. KELLOGG.

Rev. Mr. Kellogg has been recommended for the pastorate of the West Side Church of Christ. He will speak there tonight at 7:15 o'clock.

GLUMSY CAMP
COOKS CUT
THEIR FINGERS

Warriors Don't Mind—A Little Drop or Two of Medicinal Iron Stops Bleeding; Heals It, Too.

HANDSOME LITTLE BOTTLE YOU EVER HAD IN THE HOUSE.

In camp the clumsy cook's assistant, trying to peel potatoes, cuts his finger; blood spurts, but warriors are efficient. A few drops of medicinal iron, highly concentrated, and known as Acid Iron Mineral, poured over the cut, stops the bleeding, leaves no stain like iodine, and best of all prevents soreness, infection, and acts as a quick and sure healing agent.

Try it at home. It works like magic on old sores that don't heal. Sweaty, tired, tender, bruised and bleeding feet, covered with corns and bunions, after the long hike, hurt like everything, but again we find that highly concentrated cheap and efficient iron does the trick. Several thousand tests prove it not only brought relief, but cured. After that good shoes and common-sense keeps feet feeling glad.

Druggists sell Acid Iron Mineral for family use in fifty-cent and dollar size bottles. It will prove the handsomest little bottle of medicine you ever had around the house.

You can get a large bottle prepaid by sending a dollar to the Ferrigno Chemical Corp., Roanoke, Va. Sold in Newark by W. A. Erman and good stores everywhere.—(Advertisement.)

Smoking Backwards

The peculiarities of the ancient smokers are themselves a study as well as an education. The negroes smoke with the lighted end of the cigar in their mouth—let the reader picture in his mind a man smoking with the lighted end of a cigar or cigarette stuck calmly in his mouth; no fear of burning the tongue or other possible harm; just smoking and enjoying the weed as would the most unconcerned among white men, who prefer the lighted end the other way around.

Where a promise is concerned, it is just as easy to make a new one as to mend a broken one.

A man may be a conscientious soldier in spite of the fact that conscience makes cowards of us all.

MRS. NORDLING OF
COLUMBUS SAYS
"IT'S WONDERFUL"

"I Shall Keep Nerv-Worth in My Medicine Chest All the Time," She Declares.

This strikingly convincing Nerv-Worth endorsement was given by Mrs. Nordling a few days ago while at Baer's Pharmacy, Wheeling. Her original purchase of this famous family tonic druggist at Columbus. Now read her reasons for the use of that eloquent word "Wonderful."

"I was exceedingly nervous and my system in a terribly run-down condition. I had stomach trouble and indigestion so severe that my food would ferment and I would belch up some sour and bitter stuff. Badly constipated. I did not get any restful sleep but tossed about many hours during the night. I was very weak. Pains in my side and back caused me much misery.

"After using one bottle of Nerv-Worth MY AILMENTS HAVE ALL DISAPPEARED and I feel as well as ever, strong and vigorous. It is a wonderful remedy in its quick and permanent results, and I shall keep it in my medicine chest at all times. I recommend it to everyone needing the relief obtained."

"MRS. CHARLES NORDLING,
"623 5th Ave., Columbus, O."

Your dollar back by the T. J. Evans Drug store, Newark, if Nerv-Worth does not benefit YOU.

11-12-14

USE SALTS?
YES, IF ITS THE
"AMBITION" KIND

Don't use the old-fashioned salts that it's punishment to your palate and stomach to take. Use AMBITION SALTS—the new, pleasant, effervescent preparation. It tastes good. It does your whole system good. It purifies your blood, drives out the uric acid poison.

Go to T. J. Evans today and get a bottle of AMBITION SALTS for only fifty cents. Take it for indigestion, biliousness, acid stomach, headache, constipation, rheumatism, gout, liver and kidney trouble. If it doesn't do all we claim for it, your money back, on the first bottle purchased. T. J. Evans is authorized to guarantee it.
